1 TRANSLATION.

Helsingfors, May 23, 1921.

Your Excellency,

In accordance with the stipulations of Agreements concluded under condition of reciprocity between Sweden and several other countries, the admission of lunatics who are nationals of these countries, into Swedish lunatic asylums, their release from these institutions, and their death have been for some time regularly communicated to their respective Governments through their diplomatic representatives accredited to His Majesty, the King.

These communications are made in order that the relatives of the patient may be informed and to make it possible to safeguard their interests as well as those of the patient. Moreover they enable the authorities of the patient's country to take the necessary measures in order to provide for the care of his person and of his fortune.

My Government considers that it would be very desirable that similar notification should be made with regard to any Swedish nationals who are attacked abroad by mental diseases, and would be willing to undertake to transmit to the Government of the Republic of Finland, on condition of reciprocity, information regarding Finnish nationals attacked with mental disease, who happen to be in Sweden, in accordance with the following provisions:

Article 1.

Should any Finnish subject be attacked in Sweden with mental disease, his confinement in a lunatic asylum or his release from such an institution or his death, as the case may be, shall be notified to the Finnish Legation at Stockholm.

Article 2.

Article 4.

In communicating the above to Your Excellency, I have the honour to request you to be so good as to inform me whether the Finnish Government is prepared to conclude the agreement in question with Sweden.

I am authorised to state that this proposal will be considered binding by the Swedish Government whenever the Finnish Government undertakes to grant reciprocal treatment. This treatment would, in the opinion of my Government, be secured if you would embody in your reply the above provisions, with any modifications which may be considered necessary.

I have, etc.
