Monsieur le Secrétaire d'État,

In accordance with the stipulations concluded under condition of reciprocity between Sweden and several other countries, the admission of lunatics who are nationals of these countries into Swedish lunatic asylums, their release from these institutions and their death have been for some time regularly communicated to their respective Governments through their diplomatic Representatives accredited to His Majesty the King.

These communications are made in order that the relatives of the patient may be informed and to make it possible to safeguard their interests as well as those of the patient. Moreover they enable the authorities of the patient's country to take the necessary measures in order to provide for the care of his person and of his fortune.

My Government considers that it would be very desirable that similar notification should be made with regard to any Swedish nationals who are attacked abroad by mental disease, and has instructed me to propose to your Excellency the adoption of the following articles under conditions of reciprocity.

I am authorised to add that this proposal will be considered binding by the Swedish Government whenever the Government of the United States of Mexico undertakes to grant reciprocal treatment. As far as the Federal District and the Territories of lower California and Quintana Roo are concerned which in the opinion of my Government, will be secured if you would embody in your reply the above provisions with any modifications which may be considered necessary.
