Your Excellency,

With reference to our recent conversations concerning a modus vivendi for the commercial relations between Germany and Turkey, I am instructed by my Government to confirm to Your Excellency that, pending the conclusion of the commercial Treaty which is in course of negotiation, we have agreed to apply the following provisional commercial arrangement:

I. The German Government agrees to accord most-favoured-nation treatment to products of the soil and industry originating in Turkey and imported into German territory for consumption, for re-exportation or in transit.

II. The German Customs duty on raisins (No. 52 of the German Customs Tariff) shall be the same as that specified in the Commercial Agreement between Germany and Spain which expired on October 16, 1925, namely, eight gold marks per quintal (100 kilograms).

III. The application of the Customs duty specified in the preceding article shall have retroactive force as from October 17, 1925.

IV. It is understood that the above-mentioned concessions shall be subject to the application in Turkey, in respect of products of the soil and industry originating in Germany, of the treatment laid down in the commercial Convention signed at Lausanne on July 24, 1923, in respect of the products of the signatory States.

V. The present Agreement shall expire on the entry into force of the definitive commercial Treaty. Nevertheless, both Governments reserve the right, if necessary, to resume their liberty of action at one month’s notice.
