YOUR EXCELLENCY,

As a result of our conversations during the Kovno Conference, regarding the traffic facilities to be accorded to nationals of our respective countries, I have the honour to submit to you, on behalf of the Estonian Government, the following proposals:

The Legations and consular establishments of each of the two countries shall be authorised to grant visas to nationals of the other State, on presentation of a passport for abroad and without reference to the central authorities, valid for one year for repeated return journeys to the other country; these visas shall carry the right of remaining in the other country for fourteen days on each occasion, without special permit.

The Legations and consular establishments of the two countries shall charge a fee of ten gold francs for the yearly visas.

Nationals of the two countries who are obliged to prolong their stay for more than fourteen days must obtain from the competent authorities a residence permit for which they shall pay the fees established by the regulations in each country. On leaving the country, they shall procure from the competent authorities a departure permit, for which one gold franc shall be paid.

Nationals of the two countries shall be granted, without fee, for one or more journeys in conformity with the entrance visas issued by the country of destination, transit visas which will allow them to stay in the country of transit for four days on each journey.

Visas shall be stamped on the service cards of railway employees going to and fro between the two countries, and on a collective list for members of excursion parties.
