The Italian Minister for Foreign Affairs to the Under-Secretary of State at the Royal Hungarian Ministry of Commerce.

Your Excellency,

During the negotiations which led to a special agreement for the development of Hungarian traffic in transit through the port of Fiume, Your Excellency was good enough to point out the importance for the commercial relations between Italy and Hungary of the grant of special facilities to certain Hungarian goods in the port of Trieste also.

I have the honour to inform you that with this important object in view, the Administration of the Magazzini Generali at Trieste is prepared to grant the following facilities as regards the tariff rates in force since August 1, 1924:

(a) For magnesite: a reduction of 37.50% on the rate of Tariff No. V-I (entering and leaving the warehouse); free storage in warehouse for four weeks and a reduction of 20% on the warehousing rate;

(b) For haricot beans, malt, and seeds in parcels: a reduction of 12.50% on the rate of Tariff No. V-I (entering and leaving the warehouse) and free storage in warehouse for two weeks;

(c) For half-worked iron and steel (blocks, bars, rods, plates, sheets, tubes, wire, wheels): free storage in the uncovered areas for two weeks;

(d) For mineral waters in cases: a reduction of 12.50% on the rate of Tariff No. V-I (entering and leaving the warehouse).

If the normal tariffs of the Magazzini Generali should be modified in future, the Magazzini Generali will apply the percentages of reduction to the new rates for the tariff items mentioned in the present Note.

The facilities granted by the Magazzini Generali shall remain in force for one year as from July 1, 1927, and will be continued for a further year if the agreement is not denounced three months before the expiration of the first year.
