MINISTRY FOR FOREIGN AFFAIRS.

WARSAW, October 15, 1931.

Sir,

The Government of the Polish Republic, which, in virtue of Article 104 of the Treaty of Versailles acts also for the Free City of Danzig, desiring to facilitate relations between Poland and the Free City of Danzig, of the one part, and Denmark, of the other part, in the sphere of maritime navigation, I have the honour to send you the following declaration regarding the recognition in Poland and in the Free City of Danzig of Danish tonnage measurement certificates:

Tonnage measurement certificates issued by the competent Danish authorities will be recognised, subject to reciprocity, by the Polish authorities and by those of the Free City of Danzig. Port dues and all other dues based on tonnage will therefore be charged in accordance with the tonnage shown in the Danish certificates, and Danish vessels will not be subjected to re-measurement in the ports or territorial waters or at any other point in the respective territories of Poland and the Free City of Danzig.

For vessels of less than 20 tons the competent Danish authorities in respect of tonnage measurement certificates shall be the Ships Survey Department at Copenhagen, the various local registration offices and the Customs authorities. In the case of Danish vessels of over 20 tons, the tonnage measurement certificate is normally included in the nationality certificate issued by the Ships' Registry Office at Copenhagen. In addition, for vessels of the latter class, special certificates may, according to circumstances, be issued by the General Ships Survey Department at Copenhagen.
The reciprocal arrangement shall come into effect as from to-day and remain in force until ninety days after it has been denounced by the Polish Government, acting in its own name and in that of the Free City of Danzig, or by the Danish Government.

I have the honour to be, etc.
