No. 3121. — Joint Declaration by the French and Turkish Governments with regard to the better utilisation of the section of the 'Baghdad Railway' between Alexandretta and the district beyond Nisibin. Signed at Ankara, October 27, 1932.

French official text communicated by the President of the Council, Minister for Foreign Affairs of the French Republic. The registration of this Declaration took place January 3, 1933.

The French Government and the Turkish Government, desirous of strengthening the ties of friendly collaboration on the Turco-Syrian frontier, and recognising that it is in their common interest to define, in the spirit of Article 10 of the Ankara Agreement of October 20, 1921, the conditions of normal operation of the section of the 'Baghdad Railway' between Alexandretta and the district beyond Nisibin, and to arrange for the eastward extension of that railway, declare their intention to do all in their power to provide for the better utilisation of the line, and for that purpose to promote, by collaboration between the two Parties, the conclusion of an agreement within the Concessionary Company of the Baghdad Railways, in order to establish a practical régime which will take account of the interests of traffic between Turkey and Syria.

In order to carry out these intentions, the High Contracting Parties agree:

(a) To wind up the present system of operation in not more than one year;

(b) To cooperate, pending the establishment of a permanent régime, in providing for the normal working of the line and continuous traffic over the whole of the said line;

(c) For that purpose, during the above-mentioned period of one year, to endeavour to arrive at an agreement concerning provisional operation, either through companies formed in accordance with the provisions of the Protocol annexed hereto, or, should the application of that Protocol meet with insurmountable difficulties, by any other means of direct or indirect management which meets the object in view.

Up to the expiry of the maximum period of one year required for the winding-up of the present system of operation and the establishment of a new provisional régime, the present state of affairs shall not be changed. Nevertheless, the section of line Adana-Fewzi Pasha shall be handed over to the Turkish Government six months after the signature of the present Agreement.
