HONGRIE ET ITALIE

Convention culturelle. Signée à Rome, le 16 février 1935.

HUNGARY AND ITALY

His Serene Highness the Regent of the Kingdom of Hungary
and
His Majesty the King of Italy,
In view of the bonds of friendship and of the cultural ties existing between the Italian people and the Hungarian people, and which have been strengthened in recent years;
Being convinced of the desirability of ensuring the continuous development of scientific, literary and artistic relations between Italy and Hungary, which development is promoted by a wider extension of Italian culture in Hungary and of Hungarian culture in Italy;
Have decided to conclude a Convention and have for that purpose appointed as their Plenipotentiaries:

His Serene Highness the Regent of the Kingdom of Hungary:
His Excellency Dr. Valentino Hóman, Royal Hungarian Minister of Public Worship and Education;

His Majesty the King of Italy:
His Excellency Cavaliere Benito Mussolini, Head of the Government, Prime Minister Secretary of State, Minister for Foreign Affairs;

Who, having communicated their full powers, found in good and due form, have agreed as follows:

Article 1.

The Hungarian Government shall maintain in Rome the "Hungarian Institute" for the study and development of Italian-Hungarian relations in the realms of science, literature and art.

The Italian Government shall set up in Budapest an "Italian Institute" for the study and development of Italian-Hungarian relations in the realms of science, literature and art.

The High Contracting Parties shall ensure to each other, in respect of the administration of the cultural Institutes in Rome and Budapest, the transfer of rights of property over the land and buildings intended to house such Institutes, such credit operations as may be found necessary in that connection, the export and import of materials and equipment for any buildings that may be erected for the respective Institutes and for the initial establishment of the two Institutes and in respect of the continuous use of the said buildings, complete exemption from duties, taxes and charges however denominated and whether levied on one occasion or periodically, including taxes levied by provinces, communes or other bodies.

1 Translated by the Secretariat of the League of Nations, for information.
The exemptions thus established shall apply also to such official and semi-official institutions and, in accordance with agreements to be concluded between the two Governments in each particular case, to such institutions as may in any way be assimilated thereto, as are intended for the promotion, in any field, of cultural relations between the two countries and have their seats in the respective cultural Institutes in Rome and Budapest.

Should the renting of premises become necessary either for the provisional operation of the Institutes pending the preparation of their permanent quarters or through such quarters subsequently becoming inadequate to the future development of the said Institutes or that of other organisations connected therewith in accordance with agreements concluded between the two Governments, the two Governments undertake that the tax exemptions reciprocally guaranteed in the present Article shall apply also in such cases, and naturally in so far as the State is concerned.

Article 3.

The Hungarian and Italian Governments shall each increase from four to at least six the number of "study scholarships". They shall communicate to each other each year, not later than August rst, the names of the young people proposed as candidates for the study scholarships. The Italian Government shall, as soon as possible, found a chair of Hungarian language and literature at the Royal University of Bologna.

The two Governments declare themselves prepared to examine, in a spirit of reciprocity and with the fullest possible consideration of their reciprocal interests, and more particularly with reference to the requirements of the historical sciences, any proposal intended to complete the collections of records of the two States, to prevent the dispersion of records which constitute separate collections and to allow and facilitate the examination of collections of records, either on the spot or by way of loans, by persons delegated by the Governments or public institutions of the two States and also by private students approved by the two Governments.

They shall reciprocally, and with all the means at their disposal, promote the circulation of the books and periodical publications of the other country. For this purpose, there shall, by common agreement, be an examination of the possibility of revising the Customs tariffs and postal and railway rates at present in force in the two States in respect of books and printed matter.

Article 19.
