YOUR EXCELLENCY,

I have the honour to inform Your Excellency that the Netherlands Government, being desirous of concluding with the Austrian Government a provisional Agreement regarding the admission, free of Customs or other duties, of the fuel and lubricants contained in the tanks of aircraft operating an international air service, proposes that it shall consist of the following provisions:

1. The Netherlands Government shall grant on its territory in Europe the following facilities to aircraft of Austrian nationality:

   I. On arrival on Netherlands territory in Europe, the fuel and the lubricants contained in the fixed tanks of the Austrian aircraft referred to above shall be admitted free of Customs or other duties, it being understood, however, that none may be unloaded free of duty.

   II. On the departure of Austrian aircraft from a Netherlands Customs aerodrome in Europe for the purpose of proceeding to another country, the fuel and lubricants necessary for the supply of the aircraft shall be delivered free of all Customs or other duties, it being understood, however, that in the event of a landing being made at another Netherlands aerodrome, the granting of such exemption may be made subject to certain specified conditions.

   III. The exemption referred to in sub-paragraph II may be granted in the form of a refund of the duties paid.

   IV. It is understood that a Customs aerodrome is an aerodrome open for public use at which a Customs service is in operation.
