IV.

The following new provision shall be added as § 7 to Article 79:

Having regard to the working requirements of the Raeren-Kalterherberg railway line and the special situation of landed property in proximity to the said line, the competent authorities of the contracting States may by agreement authorise exceptions to the prohibitions laid down in §§ 1-3 of the present Article in respect of building on land adjacent to this line.

V.

Article 93 shall be replaced by the following new text:

§ 1. The Belgian and German Customs authorities and the other competent administrations of both States shall assist each other in discovering and prosecuting
infringements of Customs, import, export, transit, taxation or police regulations. This provision shall also apply to cases in which it comes to the knowledge of Belgian railway employees that goods handed in for despatch at a station on the Raeren-Kalterherberg railway and described in the waybill as being of German origin are in fact of Belgian origin. In such cases, the said employees shall attach to the waybill a notice warning the German Customs office that the goods are of Belgian origin.

§ 2. The provisions set forth in Annex 3 have been laid down with a view to the more effective prevention of fraud at the frontier.

VI.

The present Supplementary Agreement is drawn up in duplicate French and German texts. Both texts are equally authentic.

VII.

§ 1. The present Agreement, together with its Final Protocol, shall be ratified. The ratifications shall be exchanged at Brussels as soon as possible.

§ 2. The Agreement shall come into force on the fifteenth day after the exchange of ratifications; nevertheless, the provisions of Section III, Nos. 1 and 2, in so far as they relate to the Raeren-Rötgén main road, shall not apply before the date of the entry into force of the Treaty, likewise signed to-day, relating to the transfer of territory on the frontier between Belgium and Germany.

In faith whereof the two Plenipotentiaries have signed the present Supplementary Agreement and have thereto affixed their seals.

AIX-LA-CHAPELLE, MAY 10th, 1935.

ANNEX 3

TO THE AGREEMENT OF NOVEMBER 7th, 1929, DRAWN UP IN VIRTUE OF SECTION V OF THE SUPPLEMENTARY AGREEMENT OF MAY 10th, 1935.

Article 1.

§ 1. Within the limits laid down in the following provisions, each of the two States undertakes to assist the other State with a view to the discovery, prevention and prosecution of infringements of the Customs legislation of the said State.

§ 2. For the purposes of the present Annex, Customs legislation shall be deemed to include all regulations in respect of goods (both imported, exported and in transit) for the observance of which the Customs authorities are responsible, whether such regulations relate to the levying of duties or charges of any kind, or to measures of prohibition or supervision.

Article 2.

Customs employees of each of the two States shall use the means at their disposal for preventing infringements of the Customs legislation of their own country to prevent infringements of the Customs legislation of the other country.

No. 4221
Article 3.

Should the employees of the Customs authorities of either State learn that there has been an infringement of the Customs legislation of the other State or that such an infringement is to be attempted, they shall as soon as possible inform their own Customs authorities (the Divisional Inspector of Customs in Belgium and the District Customs Commissioner in Germany). The latter shall immediately advise one another of any infringements or attempted infringements of the Customs legislation of the other State which may be brought to their notice, and shall at the same time furnish all the necessary information with regard to the offences reported, together with any documents or evidence they have been able to obtain.

Article 4.

Should it be necessary, with a view to detecting infringements of the Customs legislation of their country, to obtain proof of charges against specific persons, the Customs officials of either State authorised for that purpose, whose rank shall be not lower than that of Divisional Inspector of Customs in Belgium and District Customs Commissioner in Germany, shall be permitted to visit the frontier Customs offices of the other State for the purpose of obtaining information from the books, documents and records of the said offices.

Article 5.

The competent Customs authorities of one of the two States shall, at the request of the competent Customs authorities of the other State, enter into negotiations with a view to the introduction, in its frontier Customs zone, of closer supervision over the movement of classes of commodities known to be the object of smuggling on a large scale into the neighbouring country.

Article 6.

§ 1. While remaining within the limits set by its own legislation, the Customs authorities of one of the two States shall, at the request of the Customs authorities of the other State, keep under observation, within the reserved Customs zone:

(a) Persons suspected of regularly or habitually infringing the Customs legislation of the neighbouring country;

(b) Buildings and places where stocks of goods are constituted in excess of the normal quantities, when it may be supposed that such stocks are for the purpose of illicit import into the neighbouring country.

§ 2. The foregoing provisions shall not affect the Agreements of November 7th, 1929, concerning the management of restaurants and bookstalls in the stations of the Raeren-Kalterherberg railway, and the management of certain retail establishments in the proximity of the frontier between Belgium and Germany.

Article 7.

With a view to the application of the foregoing provisions by effective collaboration between the Customs services, the officials appointed for the purpose by each of the two States shall arrange to meet from time to time, or in special circumstances. These officials shall be of a rank not lower than that of Divisional Inspector of Customs in Belgium and District Commissioner of Customs in Germany.

Article 8.

For the purposes set forth in Articles 4 and 7, the competent Customs officials of each of the two States may visit the frontier zone of the other State in uniform, with their service equipment, and employing their usual means of transport.
Article 9.

§ 1. In future, persons wishing to open a retail shop or constitute a store of goods of any kind in the section of Belgian territory situated between the frontier between Belgium and Germany and an imaginary line 250 metres west of the Rötgen-Fringshaus-Conzen German main road, shall first obtain permission from the competent Belgian authorities appointed for this purpose.

§ 2. If, as a result of a police charge followed by a conviction, an offence is found to have been committed in a retail shop or store authorised in virtue of § 1 or already in existence on the date of the entry into force of the present provisions, the competent authority appointed for the purpose may order that the said retail shop or store be closed.

FINAL PROTOCOL

On proceeding to sign the Agreement supplementary to the Agreement concerning the frontier between Belgium and Germany of November 7th, 1929, the Plenipotentiaries have agreed as follows:

I.

Ad No. IV. In view of certain difficulties raised at the outset by the application of the provisions of Article 79 of the Agreement of November 7th, 1929, concerning the erection of buildings or enclosures in proximity to the frontier, such buildings or enclosures as were erected during the period August 1st, 1931, to April 30th, 1935, contrary to the said provisions, a list of which shall be drawn up by the competent authorities of the contracting States, may be maintained.

II.

The Belgian National Railway Company expressed the desire, for reasons of economy, to operate a single track line between Raeren and Kalterherberg, closing the second track. The German delegation pointed out that this was contrary to the interests of the traffic and of the German Customs, and that such a measure would entail the amendment of Article 7, §§ 2 and 3, together with Annex 2, No. 1, of the Agreement of November 7th, 1929, since it would be necessary to provide for stops at the various points where trains pass one another. Nevertheless, the German delegation agreed to the provisional operation of a single track line for one year, provided that during the operation of the said single track line there was no reduction in the number of passenger trains or in their speed, that the second unused track was not removed, and that by way of amendment to Article 7, §§ 2 and 3, and Annex 2, No. 1, of the Agreement of November 7th, 1929, the following regulations were observed:

1. Goods trains shall run to a specified time-table and in so far as they utilise the loop-line, the German Customs office at Raeren shall be duly notified.
2. Trains shall only pass each other or overtake at stations.
3. Loading and unloading shall be prohibited during halts.

The Belgian delegation declared that it agreed to these regulations.

On the expiration of a period of one year, the two Governments shall confer with a view to deciding whether the aforesaid arrangements shall remain in force.
