ment. Sydney and Canberra,

No. 4095. — EXCHANGE OF NOTES¹ BETWEEN THE GOVERNMENT OF THE COMMONWEALTH OF AUSTRALIA AND THE GOVERNMENT OF THE FRENCH REPUBLIC CONSTITUTING A COMMERCIAL AGREEMENT. SYDNEY AND CANBERRA, NOVEMBER 27TH, 1936.

English and French official texts communicated by the Minister for External Affairs of the Commonwealth of Australia. The registration of this Exchange of Notes took place April 16th, 1937.

FRENCH NOTE No. 1.

CONSULATE GENERAL OF FRANCE
IN AUSTRALIA.

SYDNEY, *November 27th, 1936.*

MY DEAR MINISTER,

With reference to the negotiations which have taken place between our two Governments with a view to the conclusion of a Trade Agreement, I have the honour to inform you that, as from a date to be fixed by mutual agreement :

(1) The French Government will accord to the Australian products enumerated in Schedule A annexed to the present Note the duties of the minimum tariff, that is to say, the lowest rates which France accords or may accord to like products from any other foreign country.

(2) As regards the Australian products enumerated in the said Schedule A which are subject to quota restrictions and for which no quota has been allocated to Australia, the French Government will examine with goodwill any request which may be made by the Government of the Commonwealth of Australia with a view to obtaining a percentage of the global quota.

(3) The French Government will suppress :

(a) The exchange surtax of 15 per centum imposed on Australian products by virtue of the Decree of the 11th November, 1931 ;

(b) The increases to 4 per centum and 6 per centum in the rate of the import tax imposed on Australian products by virtue of Article 32 of the Law of 31st March, 1932 ;

(c) The special surtaxes of 200 per centum of the general tariff duties imposed on butter fresh, salted or melted (No. 37 of the French Tariff) and on wheat in the grain (ex No. 68 of the French Tariff) originating in or coming from Australia, by virtue of the Decree of the 15th January, 1930, and the Law of 11th January, 1932.

(4) The French Government will guarantee to Australia the undermentioned quotas for the importation of the following products :

¹ Came into force provisionally January 1st, 1937.

Ex No. 70. Barley in the grain :

5 per centum of the global quota for each of the four quarters of each year during the currency of the present arrangement.

If the quota of 5 per centum does not permit the importation of 20,000 quintals annually of Australian barley into France, the French Government will endeavour to grant a supplementary quota which would ensure an annual importation of this quantity. Should the French Government be unable to grant such a supplementary quota advantages of a corresponding value will be granted to Australia.

Ex. No. 84. Apples and pears, fresh :

First	quarter :	2 per centum of the global quota.
Second	„	4 per centum of the global quota.
Third	„	5 per centum of the global quota.
Fourth	„	2 per centum of the global quota.

The abovementioned quotas on barley, fresh apples and pears will not be reduced, whether the global quota is increased or decreased. This undertaking will not constitute an obstacle to the suppression of quota measures.

A special quota of 1,000 quintals which is not renewable will be granted for fresh apples and pears during the first year of operation of the present arrangement.

The import permits for barley, fresh apples and pears will be valid for 120 days from the date of issue.

The French Government undertakes to issue the import permits for fresh apples and pears in such a manner as to allow the greatest possible importation in the second quarter.

The quotas for barley, fresh apples and pears will be wholly administered by the French Government.

In consideration of the advantages by which Australian trade will therefore benefit I should be obliged if you would kindly confirm that the Government of the Commonwealth of Australia undertakes, on its part, to accord to French products the following benefits, as from a date to be fixed by mutual agreement :

(1) All French products shall, on their importation into Australia, be subjected to the lowest Customs duties applicable to like products imported from any other foreign country ;

(2) The French products enumerated in Schedule B, annexed to the present Note, shall benefit from the Australian Intermediate Tariff ;

(3) The French products enumerated in Schedule C, annexed to the present Note, shall not be subjected to higher primage duties than those set out in the said Schedule ;

(4) The French products enumerated in Schedule D, annexed to the present Note, shall not, on importation into Australia, be subjected, during the first year of operation of the present arrangement, to a higher duty than that specified in the said Schedule provided such products are used for the purpose or purposes specified and that the requirements or conditions of any Security to the Australian Customs which may be entered into are fulfilled or complied with, and provided further that after the end of such period the imposition of higher duties on the products enumerated in the said Schedule will be dependent upon an inquiry and report by the Australian Tariff Board ;

(5) The stipulations of paragraphs 2 and 4 shall not be deemed to exempt the said products from liability to sales tax or, except as provided in paragraph 3, from payment of primage duties ;

(6) The question of the duties on the French products enumerated in Schedule E, annexed to the present Note, shall be referred (if not already so referred) to the Australian Tariff Board for public inquiry and report ;

(7) In connection with the issue of licences for the importation of products enumerated in Statutory Rules 1936, No. 69 of 22nd May, 1936, French products shall benefit in all respects from the same treatment as those products originating in any other foreign country. Moreover, no special provision liable to prejudice the importation of French products shall appear in those licences.

Accept, my dear Minister, the assurance of my high consideration.

P. SUZOR,
Consul-General of France.

The Hon. Sir Henry Gullet, K.C.M.G., M.P.,
Minister directing Negotiations for Trade Treaties,
Canberra, F.C.T., Australia.

AUSTRALIAN NOTE NO. I.

PRIME MINISTER'S DEPARTMENT.
TRADE TREATIES.

CANBERRA, F.C.T., *November 27th, 1936.*

MY DEAR CONSUL-GENERAL,

On the 27th November, 1936, you kindly addressed me the following communication :

“ With reference to the negotiations which have taken place between our two Governments with a view to the conclusion of a Trade Agreement, I have the honour to inform you that, as from a date to be fixed by mutual agreement :

(1) The French Government will accord to the Australian products enumerated in Schedule A annexed to the present Note the duties of the minimum tariff, that is to say, the lowest rates which France accords or may accord to like products from any other foreign country.

(2) As regards the Australian products enumerated in the said Schedule A which are subject to quota restrictions and for which no quota has been allocated to Australia, the French Government will examine with goodwill any request which may be made by the Government of the Commonwealth of Australia with a view to obtaining a percentage of the global quota.

(3) The French Government will suppress :

(a) The exchange surtax of 15 per centum imposed on Australian products by virtue of the Decree of the 11th November, 1931 ;

(b) The increases to 4 per centum and 6 per centum in the rate of the import tax imposed on Australian products by virtue of Article 32 of the Law of 31st March, 1932 ;

(c) The special surtaxes of 200 per centum of the general tariff duties imposed on butter fresh, salted or melted (No. 37 of the French Tariff) and on wheat in the grain (ex No. 68 of the French Tariff) originating in or coming from Australia, by virtue of the Decree of the 15th January, 1930, and the Law of 11th January, 1932.

(4) The French Government will guarantee to Australia the undermentioned quotas for the importation of the following products :

Ex No. 70. Barley in the grain :

5 per centum of the global quota for each of the four quarters of each year during the currency of the present arrangement.

If the quota of 5 per centum does not permit the importation of 20,000 quintals annually of Australian barley into France, the French Government will endeavour to grant a supplementary quota which would ensure an annual importation of this quantity. Should the French Government be unable to grant such a supplementary quota advantages of a corresponding value will be granted to Australia.

Ex. No. 84. Apples and pears, fresh :

First quarter :	2 per centum of the global quota.
Second „ :	4 per centum of the global quota.
Third „ :	5 per centum of the global quota.
Fourth „ :	2 per centum of the global quota.

The abovementioned quotas on barley, fresh apples and pears will not be reduced, whether the global quota is increased or decreased. This undertaking will not constitute an obstacle to the suppression of quota measures.

A special quota of 1,000 quintals which is not renewable will be granted for fresh apples and pears during the first year of operation of the present arrangement.

The import permits for barley, fresh apples and pears will be valid for 120 days from the date of issue.

The French Government undertakes to issue the import permits for fresh apples and pears in such a manner as to allow the greatest possible importation in the second quarter.

The quotas for barley, fresh apples and pears will be wholly administered by the French Government.

In consideration of the advantages by which Australian trade will therefore benefit I should be obliged if you would kindly confirm that the Government of the Commonwealth of Australia undertakes, on its part, to accord to French products the following benefits, as from a date to be fixed by mutual agreement :

(1) All French products shall, on their importation into Australia, be subjected to the lowest Customs duties applicable to like products imported from any other foreign country ;

(2) The French products enumerated in Schedule B, annexed to the present Note, shall benefit from the Australian Intermediate Tariff ;

(3) The French products enumerated in Schedule C, annexed to the present Note, shall not be subjected to higher primage duties than those set out in the said Schedule ;

(4) The French products enumerated in Schedule D, annexed to the present Note, shall not, on importation into Australia, be subjected, during the first year of operation of the present arrangement, to a higher duty than that specified in the said Schedule provided such products are used for the purpose or purposes specified and that the requirements or conditions of any Security to the Australian Customs which may be entered into are fulfilled or complied with, and provided further that after the end of such period the imposition of higher duties on the products enumerated in the said Schedule will be dependent upon an inquiry and report by the Australian Tariff Board ;

(5) The stipulations of paragraphs 2 and 4 shall not be deemed to exempt the said products from liability to sales tax or, except as provided in paragraph 3, from payment of primage duties ;

(6) The question of the duties on the French products enumerated in Schedule E, annexed to the present Note, shall be referred (if not already so referred) to the Australian Tariff Board for public inquiry and report ;

(7) In connexion with the issue of licences for the importation of products enumerated in Statutory Rules 1936, No. 69 of 22nd May, 1936, French products shall benefit in all respects from the same treatment as those products originating in any other foreign country. Moreover, no special provision liable to prejudice the importation of French products shall appear in those licences."

I have the honour to acknowledge the receipt of this communication, together with the Schedules annexed thereto, and to inform you that it has the agreement of the Government of the Commonwealth of Australia.

Yours faithfully.

Consul-General of France in Australia,
Sydney, Australia.
