Stockholm, February 18th, 1938.

Sir,

With reference to the recent negotiations between Sweden and Estonia, I have the honour to inform you that His Majesty’s Government is prepared to put into force the following arrangement:

His Majesty’s Government will authorise the importation from Estonia into Sweden via Stockholm during 1938 — in addition to any importation which may take place under the provisions in force — of the same quantity of fresh meat of bovine cattle as was agreed upon for 1937 by the Exchange of Notes\(^3\) dated February 8th, 1937, namely, 85,000 kilogrammes, notwithstanding the provisions of the Decree of June 30th, 1937 (No. 648), concerning regulations for the importation of animals for slaughter, meat and bacon, and notwithstanding the provisions of Article 12 of the Order of September 30th, 1921 (No. 581), relating to control over the importation into the Kingdom of meat and animal fats, as interpreted by the Decrees of September 13th, 1928 (No. 353), and January 4th, 1929 (No. 2). After being passed, however, the meat shall be marked as provided by Article 10, paragraph 2, of the Decree of November 30th, 1934 (No. 558), on the inspection and marking of meat, etc., in accordance with the law on the inspection of butcher’s meat and slaughter-houses. The provisions of the Decree of September 13th, 1928 (No. 354), laying down certain rules with regard to the preparation and sale of certain meat articles of foreign origin, as amended by the Decree of January 4th, 1929 (No. 3), shall also not apply to the above meat.

Meat for inclusion in the quota thus granted shall be accompanied by a certificate issued for that purpose on behalf of the Estonian Government by an Estonian Customs authority.

Furthermore, the Estonian Government undertakes to see that the sums paid for the meat in question are used for the purchase of Swedish goods to be imported into Estonia, primarily agricultural products, including live-stock for breeding purposes and seeds.

If the Estonian Government approves this Arrangement, I would venture to suggest that it be deemed to be concluded by the present letter and the reply which I trust you will be good enough to send me.
