593 (VI). Control and limitation of documentation

The General Assembly,

Noting the steps taken and the progress so far achieved in the organization of documentation and the stabilization of publication programmes,

Noting also, however, the continued increase in the volume of documentation requested by the various organs of the United Nations, and the ever-growing difficulty encountered by delegations in making the most effective use thereof,

Appreciating that, in order to be effective, further action to limit documentation costs must apply alike to the number of documents, to their individual bulk and to the number of copies issued,

1. *Invites* the governments of Member States:

(a) To assist in reducing the number and individual bulk of documents to a minimum by:

(i) Bearing in mind the desirability of ensuring that all draft resolutions which may call for studies and reports and for their dissemination clearly indicate the scope of such studies and reports;

(ii) Restricting both the number and the volume of the documents submitted for processing to what is strictly required by resolutions and other statutory decisions of a United Nations organ, or is clearly relevant to agenda items under discussion;

(b) To assist in reducing the number of copies of such documents as are issued by:

(i) Reviewing and reducing as far as possible their requests for documents issued in first distribution, and submitting to the Secretary-General their revised lists;

(ii) Avoiding as far as possible conference room requests for additional copies;
