Welcoming the emphasis on strengthening co-operation which has developed in the past year with the Bureau of Social Affairs, the specialized agencies and the non-governmental organizations,

Recognizing that the impact of the Fund on social and economic development is steadily increasing,

Recognizing also the increasing opportunities for effective use of aid from the Fund,

1258 (XIII). Formulation of social policies related to economic development

The General Assembly,

Recalling its resolution 1161 (XII) of 26 November 1957 on balanced and integrated economic and social progress,

¹ Official Records of the General Assembly, Thirteenth Session, Supplement No. 3, (A/3848).

Noting with satisfaction the increased attention given by the Economic and Social Council to the social aspects of economic development in the terms of reference of the Economic Commission for Africa, and the Council's decision to ask the other regional economic commissions to consider and give advice on this question,

Recognizing the special problems of countries with insufficiently developed resources in ensuring balanced economic and social development,

Recognizing that the promotion of higher standards of living, full employment and conditions of economic and social progress and development, called for in Article 55 of the Charter of the United Nations, requires not only a general rise in the national production of the countries concerned but also the raising of family levels of living by, *inter alia*, appropriate use of national income,

Realizing the close interdependence of economic development and social development,

Requests the Economic and Social Council, in collaboration with the specialized agencies concerned, to consider as early as possible what social programmes and policies would be best designed to:

(a) Accelerate economic growth through increases in the national production by, *inter alia*, instituting appropriate health and education programmes;

(b) Promote social services to meet the problems which result from economic and technological change and from rapid urbanization;

(c) Raise family levels of living by, *inter alia*, avoid-ing an inequitable distribution of national income.

780th plenary meeting,
14 November 1958.

1259 (XIII). Technical assistance to Afghanistan

The General Assembly,

Welcoming the adoption by Afghanistan, which was formerly an important opium-producing country, of the law of Kaus 2, 1336 (24 November 1957) prohibiting opium cultivation in Afghanistan,

Believing that technical assistance in the field of eco-nomic and social development is necessary for the full execution of the policy incorporated in the above-men-tioned law and for minimizing serious economic and social consequences,

Recognizing that the success of Afghanistan in this field requires international co-operation,

1. *Expresses its appreciation* of the policy adopted by Afghanistan;

2. *Requests* the relevant technical assistance organs of the United Nations and the specialized agencies con-cerned to pay due attention to requests from the Gov-ernment of Afghanistan for technical assistance in this field.

Recalling its resolution 1164 (XII) of 26 November 1957 on the development of international co-operation in the fields of science, culture and education, and Eco-nomic and Social Council resolution 695 (XXVI) of 31 July 1958 on the survey which is to be prepared on international relations and exchanges in the fields of education, science and culture,

Recognizing the responsibility of the United Nations for co-ordinating the activities of its organs and those of the specialized agencies in accordance with Articles 58 and 63 of the Charter of the United Nations, and noting that the Economic and Social Council has re-quested the United Nations and five of the specialized agencies to undertake appraisals of their activities and programmes for the period 1959 to 1964,

1. *Requests* the Secretary-General, in co-operation with the United Nations Educational, Scientific and Cultural Organization and the other specialized agencies concerned with the peaceful application of science, as well as the International Atomic Energy Agency, to arrange for a survey to be made on the main trends of

2. *Invites* the above-mentioned organizations to co-operate with the Secretary-General in this connexion;

3. *Further requests* the Secretary-General to submit this survey to the Economic and Social Council at its thirtieth session for comment and any appropriate rec-ommendations;
