

3. *Calls upon* the nuclear-weapon States which have not done so to respond positively to this proposal and to extend the necessary cooperation in the efforts to establish a nuclear-weapon-free zone in South Asia;

4. *Requests* the Secretary-General to communicate with the States of the region and other concerned States in order to ascertain their views on the issue and to promote consultations among them with a view to exploring the best possibilities of furthering the efforts for the establishment of a nuclear-weapon-free zone in South Asia;

5. *Also requests* the Secretary-General to report on the subject to the General Assembly at its forty-seventh session;

6. *Decides* to include in the provisional agenda of its forty-seventh session the item entitled "Establishment of a nuclear-weapon-free zone in South Asia".

65th plenary meeting
6 December 1991

46/32. Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons

The General Assembly,

Bearing in mind the need to allay the legitimate concern of the States of the world with regard to ensuring lasting security for their peoples,

Convinced that nuclear weapons pose the greatest threat to mankind and to the survival of civilization,

Welcoming the progress achieved in recent years in both nuclear and conventional disarmament,

Noting that, despite recent progress in the field of nuclear disarmament, further efforts are necessary towards the achievement of the goal of general and complete disarmament under effective international control,

Also convinced that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Determined strictly to abide by the relevant provisions of the Charter of the United Nations on the non-use of force or threat of force,

Recognizing that the independence, territorial integrity and sovereignty of non-nuclear-weapon States need to be safeguarded against the use or threat of use of force, including the use or threat of use of nuclear weapons,

Considering that, until nuclear disarmament is achieved on a universal basis, it is imperative for the international community to develop effective measures and arrangements to ensure the security of non-nuclear-weapon States against the use or threat of use of nuclear weapons from any quarter,

Recognizing also that effective measures and arrangements to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons can contribute positively to the prevention of the spread of nuclear weapons,

Bearing in mind paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly,² the first special session devoted to disarmament, in which it urged the nuclear-weapon States to pursue efforts to conclude, as appropriate, effective arrangements to assure

non-nuclear-weapon States against the use or threat of use of nuclear weapons, and desirous of promoting the implementation of the relevant provisions of the Final Document,

Recalling the relevant parts of the special report of the Committee on Disarmament,⁵ submitted to the General Assembly at its twelfth special session,¹⁴ the second special session devoted to disarmament, and of the special report of the Conference on Disarmament submitted to the Assembly at its fifteenth special session,¹⁵ the third special session devoted to disarmament, as well as of the report of the Conference on its 1991 session,¹⁶

Recalling also paragraph 12 of the Declaration of the 1980s as the Second Disarmament Decade, contained in the annex to its resolution 35/46 of 3 December 1980, which states, *inter alia*, that all efforts should be exerted by the Committee on Disarmament urgently to negotiate with a view to reaching agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Noting the in-depth negotiations undertaken in the Conference on Disarmament and its Ad Hoc Committee on Effective International Arrangements to Assure Non-Nuclear-Weapon States against the Use or Threat of Use of Nuclear Weapons, with a view to reaching agreement on this item,

Taking note of the proposals submitted under that item in the Conference on Disarmament, including the drafts of an international convention,

Taking note also of the final document on international security and disarmament adopted by the Ninth Conference of Heads of State or Government of Non-Aligned Countries, held at Belgrade from 4 to 7 September 1989,¹⁷ as well as the relevant recommendations of the Organization of the Islamic Conference reiterated in the Final Communiqué of the Twentieth Islamic Conference of Foreign Ministers, held at Istanbul from 4 to 8 August 1991,¹⁸ calling upon the Conference on Disarmament to reach an urgent agreement on an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Taking note further of the unilateral declarations made by all nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

Noting also the greater willingness to overcome the difficulties encountered in previous years,

Recalling its relevant resolutions adopted in previous years, in particular resolution 45/54 of 4 December 1990,

1. *Reaffirms* the urgent need to reach an early agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons;

2. *Notes with satisfaction* that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear

weapons, although the difficulties as regards evolving a common approach acceptable to all have also been pointed out;

3. *Appeals* to all States, especially the nuclear-weapon States, to work actively towards an early agreement on a common approach and, in particular, on a common formula that could be included in an international instrument of a legally binding character;

4. *Recommends* that further intensive efforts should be devoted to the search for such a common approach or common formula and that the various alternative approaches, including, in particular, those considered in the Conference on Disarmament, should be further explored in order to overcome the difficulties;

5. *Recommends also* that the Conference on Disarmament should actively continue intensive negotiations with a view to reaching early agreement and concluding effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, taking into account the widespread support for the conclusion of an international convention and giving consideration to any other proposals designed to secure the same objective;

6. *Decides* to include in the provisional agenda of its forty-seventh session the item entitled "Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons".

65th plenary meeting
6 December 1991

46/33. Prevention of an arms race in outer space

The General Assembly,

Recognizing the common interest of all mankind in the exploration and use of outer space for peaceful purposes,

Reaffirming the will of all States that the exploration and use of outer space, including the Moon and other celestial bodies, shall be for peaceful purposes, shall be carried out for the benefit and in the interest of all countries, irrespective of their degree of economic or scientific development, and shall be the province of all mankind,

Reaffirming also provisions of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹⁹

Recalling the obligation of all States to observe the provisions of the Charter of the United Nations regarding the use or threat of use of force in their international relations, including in their space activities,

Reaffirming further paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly,² in which it is stated that in order to prevent an arms race in outer space further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty,

Recalling also its previous resolutions on this issue and the Declaration adopted by the Ninth Conference of Heads of State or Government of Non-Aligned Countries, held at Belgrade from 4 to 7 September 1989,¹⁷ and taking note of the proposals submitted to the General Assembly at its tenth special session and at its regular sessions, and

of the recommendations made to the competent organs of the United Nations and to the Conference on Disarmament,

Recognizing the grave danger for international peace and security of an arms race in outer space and of developments contributing to it,

Emphasizing the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

Considering that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

Noting that bilateral negotiations between the Union of Soviet Socialist Republics and the United States of America have continued since 1985 with the declared objective of working out effective agreements aimed, *inter alia*, at preventing an arms race in outer space,

Welcoming the re-establishment of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space at the 1991 session of the Conference on Disarmament, in the exercise of the negotiating responsibilities of this sole multilateral body on disarmament, to continue to examine and identify, through substantive and general consideration, issues relevant to the prevention of an arms race in outer space,

Noting also that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space,²⁰ and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

Emphasizing the mutually complementary nature of bilateral and multilateral efforts in the field of preventing an arms race in outer space, and hoping that concrete results will emerge from these efforts as soon as possible,

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space,

Recalling in this context its resolution 45/55 B of 4 December 1990 which, *inter alia*, reaffirmed the importance of confidence-building measures as means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

1. *Reaffirms* the importance and urgency of preventing an arms race in outer space and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;

2. *Reaffirms its recognition*, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime applicable to outer space by itself does not guarantee the prevention of an arms race in outer space, that this legal regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce
