38/75. Condemnation of nuclear war

The General Assembly,

Expressing its alarm at the growing threat of nuclear war, which can lead to the destruction of civilization on earth,

Drawing the attention of all States and peoples to the conclusions arrived at by the most eminent scientists and military and civilian experts to the effect that it is impossible to limit the deadly consequences of nuclear war if it is ever begun and that in a nuclear war there can be no victors,

Convinced that the prevention of nuclear catastrophe is the most profound aspiration of billions of people on earth,

Reaffirming its call for the conclusion of an international convention on the prohibition of the use of nuclear weapons with the participation of all the nuclear-weapon States,

1. *Resolutely, unconditionally and for all time condemns* nuclear war as being contrary to human conscience and reason, as the most monstrous crime against peoples and as a violation of the foremost human right—the right to life;

2. *Condemns* the formulation, propounding, dissemination and propaganda of political and military doctrines and concepts intended to provide “legitimacy” for the first use of nuclear weapons and in general to justify the “admissibility” of unleashing nuclear war;

3. *Calls upon* all States to unite and redouble their efforts aimed at removing the threat of nuclear war, halting the nuclear-arms race and reducing nuclear weapons until they are completely eliminated.

38/76. Nuclear-weapon freeze

The General Assembly,

Expressing its alarm that the continuing nuclear-arms race seriously increases the risk of the outbreak of a nuclear war,

Taking into account the great responsibility of nuclear States for the preservation of universal peace and the prevention of nuclear war,

Recalling its resolution 37/100 B of 13 December 1982, in which it expressed the firm conviction that the existing conditions were most propitious for a nuclear-weapon freeze,

1. *Urges* all nuclear-weapon States to proceed to freeze, under appropriate verification, all nuclear weapons in their possession both in quantitative and qualitative terms, namely:

(a) To cease the buildup of all components of nuclear arsenals, including all kinds of nuclear-weapon delivery systems and all kinds of nuclear weapons;

(b) Not to deploy nuclear weapons of new kinds and types;

(c) To establish a moratorium on all tests of nuclear weapons and on tests of new kinds and types of their delivery systems;

(d) To stop the production of fissionable materials for the purpose of creating nuclear weapons;

2. *Calls upon* the Union of Soviet Socialist Republics and the United States of America, which possess the largest nuclear arsenals, to freeze, in the first place and simultaneously, their nuclear weapons on a bilateral basis by way of example to the other nuclear States;

3. *Believes* that all the other nuclear-weapon States should subsequently and as soon as possible freeze their nuclear weapons;

4. *Stresses* the urgent need to intensify efforts aimed at the speedy achievement of agreements on substantial limitations and radical reductions of nuclear weapons with a view to their complete elimination as the ultimate goal.

38/77. Question of Antarctica

The General Assembly,

Having considered the item entitled “Question of Antarctica”,

Conscious of the increasing international awareness of and interest in Antarctica,

Bearing in mind the Antarctic Treaty⁵⁷ and the significance of the system it has developed,

Taking into account the debate on this item at its thirty-eighth session,⁵⁸

Convinced of the advantages of a better knowledge of Antarctica,

Affirming the conviction that, in the interest of all mankind, Antarctica should continue forever to be used exclusively for peaceful purposes and that it should not become the scene or object of international discord,

Recalling the relevant paragraphs of the Economic Declaration adopted by the Seventh Conference of Heads of State or Government of the Non-Aligned Countries, held at New Delhi from 7 to 12 March 1983,⁵⁹

1. *Requests* the Secretary-General to prepare a comprehensive, factual and objective study on all aspects of Antarctica, taking fully into account the Antarctic Treaty system and other relevant factors;

2. *Also requests* the Secretary-General to seek the views of all Member States in the preparation of the study;

3. *Requests* those States conducting scientific research in Antarctica, other interested States, the relevant special-
