

# General Assembly

Distr.: General  
4 January 2013

Sixty-seventh session  
Agenda item 94 (m)

## Resolution adopted by the General Assembly on 3 December 2012

[on the report of the First Committee (A/67/409)]

### 67/51. Preventing the acquisition by terrorists of radioactive sources

*The General Assembly,*

*Recalling* its resolutions 62/46 of 5 December 2007 and 65/74 of 8 December 2010,

*Recognizing* the essential contribution of radioactive materials and sources to social and economic development, and the benefits drawn from their use for all States,

*Recognizing also* the determination of the international community to combat terrorism, as evident in relevant General Assembly and Security Council resolutions,

*Deeply concerned* by the threat of terrorism and the risk that terrorists may acquire, traffic in or use radioactive materials or sources in radiological dispersion or emitting devices,

*Deeply concerned also* by the potential threat to human health and the environment that would result from the use of such devices by terrorists,

*Recalling* the importance of international conventions aimed at preventing and suppressing such a risk, in particular the International Convention for the Suppression of Acts of Nuclear Terrorism, adopted on 13 April 2005,<sup>1</sup> and the Convention on the Physical Protection of Nuclear Material, adopted on 26 October 1979,<sup>2</sup> as well as its Amendment, adopted on 8 July 2005,<sup>3</sup>

*Noting* that actions of the international community to combat the proliferation of weapons of mass destruction and prevent access by non-State actors to weapons of mass destruction and related material, notably Security Council resolutions 1540 (2004) of 28 April 2004 and 1977 (2011) of 20 April 2011, constitute contributions to the protection against nuclear and radiological terrorism,

<sup>1</sup> United Nations, *Treaty Series*, vol. 2445, No. 44004.

<sup>2</sup> *Ibid.*, vol. 1456, No. 24631.

<sup>3</sup> See International Atomic Energy Agency, document GOV/INF/2005/10-GC(49)/INF/6, attachment.

*Stressing* the importance of the role of the International Atomic Energy Agency in promoting and reinforcing the safety and security of radioactive materials and sources, in particular by establishing technical guidance and supporting States in the improvement of national legal and regulatory infrastructure, and in strengthening coordination and complementarities among various nuclear or radiological security activities,

*Noting*, to this end, the announcement by the International Atomic Energy Agency of the International Conference on Nuclear Security: Enhancing Global Efforts, to be held in Vienna from 1 to 5 July 2013, as well as the International Conference on the Safety and Security of Radioactive Sources: Maintaining the Continuous Global Control of Sources throughout their Life Cycle, to be held in Abu Dhabi from 27 to 31 October 2013,

*Stressing* the contribution of the International Atomic Energy Agency to preventing illicit trafficking in radioactive materials and identifying vulnerabilities in security systems through, inter alia, the Illicit Trafficking Database and its work in the field of nuclear forensics,

*Taking note* of the importance of the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management<sup>4</sup> with respect to its provisions on the safety of the end of life of radioactive sources,

*Taking note also* of the importance of the Code of Conduct on the Safety and Security of Radioactive Sources and of the Guidance on the Import and Export of Radioactive Sources as valuable instruments for enhancing the safety and security of radioactive sources, while recognizing that the Code is not a legally binding instrument, and of the International Atomic Energy Agency Revised Action Plan for the Safety and Security of Radioactive Sources and its Nuclear Security Plan for 2010–2013, and of the voluntary contributions of Member States to the International Atomic Energy Agency Nuclear Security Fund,

*Encouraging* Member States to make voluntary contributions to the International Atomic Energy Agency Nuclear Security Fund,

*Taking note* of resolutions GC(56)/RES/9 and GC(56)/RES/10, adopted by the General Conference of the International Atomic Energy Agency at its fifty-sixth regular session, which address measures to strengthen international cooperation in nuclear, radiation, transport and waste safety and measures to protect against nuclear and radiological terrorism, and of the International Atomic Energy Agency Nuclear Security Plan for 2010–2013,

*Welcoming* the fact that Member States have taken multilateral actions to address this issue, as reflected in General Assembly resolution 66/7 of 2 November 2011,

*Noting* the various international efforts and partnerships to enhance nuclear and radiological security and to implement measures contributing to nuclear material security in relation to the security of radioactive substances, and encouraging the efforts to secure those materials,

*Noting also* the establishment in May 2011 of the Radiological and Nuclear Terrorism Prevention Unit of the International Criminal Police Organization (INTERPOL), which works with nations to strengthen capabilities to counter

nuclear smuggling and prevent terrorists from acquiring nuclear or radiological materials, as well as INTERPOL Operation Fail Safe, which promotes the sharing of sensitive law-enforcement information on known nuclear smugglers,

*Welcoming* the ongoing individual and collective efforts of Member States to take into account in their deliberations the dangers posed by the lack or insufficiency of control over radioactive materials and sources, and recognizing the need for States to take more effective measures to strengthen those controls in accordance with their national legal authorities and legislation and consistent with international law,

*Mindful* of the responsibilities of every Member State, in accordance with international obligations, to maintain effective nuclear safety and security, asserting that responsibility for nuclear security within a State rests entirely with that State, and noting the important contribution of international cooperation in supporting the efforts of States to fulfil their responsibilities,

*Mindful also* of the urgent need to address, within the United Nations framework and through international cooperation, this rising concern for international security,

1. *Calls upon* Member States to support international efforts to prevent the acquisition and use by terrorists of radioactive materials and sources, and, if necessary, suppress such acts, in accordance with their national legal authorities and legislation and consistent with international law;

2. *Urges* Member States to take and strengthen national measures, as appropriate, to prevent the acquisition and use by terrorists of radioactive materials and sources, as well as terrorist attacks on nuclear plants and facilities which would result in radioactive releases, and, if necessary, to suppress such acts, in particular by taking effective measures to account for, secure and physically protect such facilities, materials and sources in accordance with their international obligations;

3. *Encourages* Member States to enhance their national capacities with appropriate means of detection and related architecture or systems, including through international cooperation and assistance in conformity with international law and regulations, with a view to detecting and preventing illicit trafficking in radioactive materials and sources;

4. *Encourages* all Member States that have not yet done so to become party to the International Convention for the Suppression of Acts of Nuclear Terrorism<sup>1</sup> as soon as possible, in accordance with their legal and constitutional processes;

5. *Invites* Member States, in particular those producing and distributing radioactive sources, to support and endorse the efforts of the International Atomic Energy Agency to enhance the safety and security of radioactive sources, as described in General Conference resolution GC(56)/RES/10 and to enhance the security of radioactive sources as described in the Nuclear Security Plan for 2010–2013, urges all States to work towards following the guidance contained in the Code of Conduct on the Safety and Security of Radioactive Sources, including, as appropriate, the Guidance on the Import and Export of Radioactive Sources, noting that the Guidance is supplementary to the Code, and encourages Member States to notify the Director General of the Agency of their intention to do so pursuant to General Conference resolution GC(56)/RES/9;

6. *Recognizes* the value of information exchange on national approaches to controlling radioactive sources, and takes note of the endorsement by the Board of Governors of the International Atomic Energy Agency of a proposal for a formalized

process for a voluntary periodic exchange on information and lessons learned and for the evaluation of progress made by States towards implementing the provisions of the Code of Conduct on the Safety and Security of Radioactive Sources;

7. *Welcomes* the efforts undertaken by Member States, including through international cooperation under the auspices of the International Atomic Energy Agency, to search for, locate, secure and recover unsecured and/or uncontrolled (“orphan”) radioactive sources within their State jurisdiction or territory;

8. *Encourages* cooperation among and between Member States and through relevant international and, where appropriate, regional organizations aimed at strengthening national capacities in this regard;

9. *Decides* to include in the provisional agenda of its sixty-ninth session, under the item entitled “General and complete disarmament”, the sub-item entitled “Preventing the acquisition by terrorists of radioactive sources”.

*48th plenary meeting  
3 December 2012*
