Article I.

Les produits naturels ou fabriqués, originaires et en provenance du Canada, énumérés à la liste A annexée au présent Traité, seront admis à leur importation en France, dans les Colonies, possessions et protectorats français qui ont le même régime douanier que la France, au bénéfice du tarif minimum et des taux les plus réduits, tant en ce qui concerne les droits et taxes à l'impor-

any such duties or taxes which France may hereafter establish and also as regards surtaxes, coefficients or other temporary increases that France may establish.

Article 2.

The grant of the minimum tariff for the products enumerated in Schedule A means the treatment of the most-favoured nation as respects such products, but does not entitle Canada to claim the benefit of any preferential advantage which France may grant to her Protectorates or the benefit of any tariff resulting from economic agreements which France may enter into with border States, or the benefits of any tariff which France may grant for products the importation of which is designed to facilitate financial settlements with those countries that were at war with France during the years 1914-1918.

Article 3.

The natural and manufactured products originating in and coming from Canada enumerated in Schedule B to this Convention when imported into France, the French Colonies, Possessions and Protectorates having the same customs tariff as France, shall enjoy the benefit of the percentages of reduction mentioned in the said Schedule, such percentages to bear on the difference between the rates of the general tariff and those of the minimum tariff. These percentages shall remain the same whatever increase or decrease of tariff duties, surtaxes or co-efficients France may establish in the future.

Article 4.

If France shall at any time grant to the United States of America as regards any of the products mentioned in Schedule B to the present Convention percentages more favourable than those mentioned in the said Schedule, or the benefit of the minimum tariff, the same or similar products originating in and coming from Canada shall immediately and unconditionally enjoy the benefit of the said concessions.

Article 5.

All products originating in and coming from Canada other than those mentioned in Schedules A and B to this Convention shall be subject in France to the rates of the general tariff of 1910 as long as by virtue of the French Decree of March 28, 1921, such tariff shall continue to be applicable to the products of the United States of America other than those specified in Schedule A and Schedule B to the French Law of March 29, 1910.

If the United States of America should at any time cease to enjoy the benefit of the French Decree of March 28, 1921, products of Canada other than those enumerated in Schedules A and B to this Convention shall enjoy a reduction of twenty-five per cent on the difference between the French general tariff and minimum tariff, whatever the rates of these tariffs may be.

If at any time France grants to the United States of America for any products other than those enumerated in Schedules A and B to this Convention more favourable treatment than is granted to Canada, Canada shall be entitled to claim the benefit of the same treatment for any identical or similar products originating in and coming from Canada, on condition that France shall be entitled to ask from Canada a reasonable and equivalent concession. France undertakes to give due consideration to any claim thus put forward by Canada and promptly to make known what concession of a similar nature she wishes to receive in return. The Governments of the two countries undertake to examine these questions in a friendly spirit and with a mutual desire to arrive at an equitable agreement.

Article 6.

The natural and manufactured products originating in and coming from Canada shall enjoy in the French Colonies, Possessions and Protectorates not having the same customs tariff as France the benefit of the tariff which may be applied there to the products of the most-favoured foreign nation.

If the regime applied to the most-favoured foreign nation does not grant in the islands of St. Pierre and Miquelon the benefit of the minimum tariff for any of the products mentioned in Schedule C, the lowest tariff in force in these islands shall nevertheless apply to the said products originating in and coming from Canada.

Article 7.

If under the preceding Articles the French minimum tariff does not apply to foodstuffs originating in and coming from Canada, these products shall nevertheless enjoy the benefit of the said tariff upon their importation into the French West Indies and French Guiana.

Article 8.

The natural and manufactured products originating in and coming from France and from the French Colonies, Possessions and Protectorates shall be admitted into Canada under the rates of the intermediate tariff or of any more favourable tariff that Canada may grant to the products of any other foreign country.

Article 9.

The natural and manufactured products originating in and coming from France, the French Colonies, Possessions and Protectorates enumerated in Schedule D to this Convention shall enjoy on their importation into Canada the benefit of the rates mentioned in the said Schedule as well as any more favourable tariff that Canada may grant to the identical or similar products of any foreign country.

Article 10.

The natural and manufactured products originating in and coming from France, the French Colonies, Possessions and Protectorates enumerated in Schedule E to this Convention when imported into Canada shall be subject to the duties of the intermediate tariff, provided, however, that on the amount of the duty computed under such tariff the importer shall be entitled to a discount of ten per cent.

Provided also that on such products or any of them the proportionate difference between the intermediate and general tariffs shall at no time be less than it is at present.

Article 11.

The natural and manufactured products originating in and coming from France, the French Colonies, Possessions and Protectorates enumerated in Schedule F to this Convention when imported into Canada shall be subject to the duties of the intermediate tariff, provided, however, that on the amount of the duty computed under such tariff the importer shall be entitled to a discount of fifteen per cent.

Provided also that on such products or any of them the proportionate difference between the intermediate and general tariffs shall at no time be less than it is at present.

Article 12.

For the products mentioned in the Schedules to this Convention Canada and France grant to each other the benefit of the most favourable rates that may result from changes introduced into the classification of goods or from specialisations introduced into the tariffs as a result of administrative or legislative measures or as a result of conventions entered into with other Powers.

Article 13.

Subject to the exceptions provided for in Article 2 of the present Convention, any product at present admitted free of customs duties into France, the French Colonies, Possessions and Protectorates if later made subject to a customs duty shall enjoy if originating in and coming from Canada the lowest tariff which applies to a similar product imported from any foreign country whatsoever.

Reciprocally if any product at present admitted free of customs duties into Canada by virtue of the Canadian intermediate tariff or of any tariff that may be substituted for it becomes liable to a customs duty the said product when imported from France or the French Colonies, Possessions and Protectorates shall enjoy the lowest tariff which applies to a similar product imported from any foreign country whatsoever.

Article 14.

To enjoy the benefit of the tariff advantages provided for in the foregoing Articles products originating in and coming from France, the French Colonies, Possessions and Protectorates shall be conveyed without transshipment from a port of those territories or from a port of a country enjoying the benefit of the preferential or intermediate tariff into a sea or river port of Canada.

Reciprocally to enjoy the benefit of the tariff advantages provided for in the foregoing Articles the products originating in and coming from Canada imported into France, the French Colonies, Possessions and Protectorates shall be conveyed direct from a Canadian port without transshipment in any country that does not enjoy the said tariff advantages.

Provided, however, that nothing in this Article shall exempt the product of either country from any "surtaxe d'entrepôt" that is now or hereafter may be imposed on products imported indirectly.

Article 15.

France and Canada undertake not to establish one against the other any prohibition or restriction of importation, exportation, or transit which shall not at the same time be applicable to other countries.

Provided, however, that France and Canada reserve to themselves the right to establish in regard to products originating in or destined for the one or other country any temporary prohibition or restriction of importation, exportation, or transit which either of them adjudges necessary to protect the public health, to prevent the spread of animal diseases or the destruction of crops, or in the interests of national safety.

Article 16.

The High Contracting Parties grant to each other as regards export duties and taxes the most-favoured-nation treatment. Drawbacks on the exportation of French or Canadian products shall not be higher than the amount of the import, excise, interior consumption or town duties collected upon the said products or the materials entering into their manufacture.

Article 17.

The natural and manufactured products of the two countries imported into the territory of the other and destined for warehousing or transit to any destination whatsoever shall not be liable to any tariff duty or interior duty other than those at present in force in either of the two countries or any other duties and impositions intended specifically to defray the cost of supervision or administrative expenses which may arise from the transit, not excluding, however, fiscal taxes incident to the transactions which these goods may be subject to in the course of warehousing or transportation.

Article 18.

Products of Canadian origin of any kind imported into France, the French Colonies, Possessions and Protectorates shall not be subject to any other or higher duties of excise or town dues than those which are or may be charged upon like products of the most-favoured nation.

In like manner products of any kind originating in France, the French Colonies, Possessions or Protectorates when imported into Canada shall not be subject to any other or higher duties of excise or town dues than those which are or may be charged upon like products of the most-favoured nation.

France and Canada guarantee to one another the treatment of the most-favoured nation as regards the duties of exportation, re-exportation, transit, warehousing, the transshipment of goods and the fulfilment of customs formalities.

Subject to the laws now in force in either country, France and Canada grant each other national treatment as regards consumption dues or other duties imposed upon the sale of goods.

Article 19.

For the enforcement of the foregoing Articles France and Canada may require the products to be accompanied upon their importation by certificates of origin or declarations issued in conformity with the laws of the country from which they originate.

If the Canadian Government or the French Government deem it necessary to have such certificates or declarations viséd, they may appoint or designate for such purposes officers who shall give such "visés" free of charge.

If in any case representations be made to one of the Governments by an authorised agent of the other Government that there is reason to believe that fraudulent practices have been resorted to in the issue of such certificates, the Government to which complaint is made shall immediately take steps to enquire into the facts of the case, shall report the result of the enquiry to the complaining Government and shall take all available means to prevent the continuation of the fraudulent practices if such be found.

Article 20.

If importers of French wines or other products of French agriculture furnish certificates of analysis or of purity thereof issued by scientific establishments under the control of the Minister of Agriculture of France and designated by him, such certificates shall for all purposes be taken into consideration by the Canadian Customs authorities, without, however, restricting their right of appraisalment.

In like manner certificates accompanying Canadian products issued by any authority under the control of the Government of Canada shall for all purposes be taken into consideration by the French Customs authorities, without, however, restricting their right of appraisalment.

To enjoy the benefit of the tariff advantages granted by this Convention, every invoice of champagne, cognac brandy, and armagnac brandy shall be accompanied by a certificate of analysis and purity issued under the authority of the Government of the country of production.

Article 21.

France and Canada grant to each other reciprocally the treatment of nationals as respects the protection of trade marks, patents, commercial names, industrial designs and patterns, names of origin of products and the prevention of unfair competition.

Article 22.

For the application of *ad valorem* duties, exporters of products originating in France, the French Colonies, Possessions and Protectorates, and reciprocally the exporters of Canadian products, may produce certificates of value issued by any Chamber of Commerce or by any other similar commercial organisation. Such certificates shall be taken into consideration by the respective customs officials in levying the duties to which the imported products may be liable, without, however, restricting their right of appraisalment.

Article 23.

Merchants and manufacturers, subjects of one of the High Contracting Parties, as well as merchants and manufacturers domiciled and exercising their commerce and industries in the territories of such party, may, in the territories of the other, either personally or by means of commercial travellers, make purchases or collect orders, with or without samples, and such merchants, manufacturers and their commercial travellers while so making purchases or collecting orders shall in the matter of taxation and facilities enjoy the most-favoured-nation treatment.

Articles imported as samples for the purposes above mentioned shall, in each country, be temporarily admitted free of duty on compliance with the customs regulations and formalities established to assure their re-exportation or the payment of the prescribed customs duties if not re-exported within the period allowed by law. But the foregoing privilege shall not extend to articles which, owing to their quality or value, cannot be considered as samples, or which, owing to their nature, could not be identified upon re-exportation. The determination of the question of qualification of samples for duty-free admission rests in all cases exclusively with the competent authorities of the place where the importation is effected.

Article 24.

The nationals of each of the High Contracting Parties shall enjoy on the territory of the other the treatment granted to the nationals of the most-favoured nation. They shall not be subjected there to any duties, rates or taxes, under any denomination whatever, other or higher than those imposed on the nationals of any foreign country.

Article 25.

The High Contracting Parties declare that they mutually recognise for all corporations, and other commercial, industrial, financial, and insurance associations constituted and authorised

under the particular laws of either of them, the right of free access to the tribunals of the other, subject to no other condition except that they conform to the laws of that country.

The said companies and associations of either of the High Contracting Parties shall have the right, if the laws and regulations of the other are not contrary to it, and subject to the fulfilment of all the formalities provided for by those laws and regulations, of exerting their activity and settling in the territory of the latter country ; they shall enjoy, as regards their settlement, the same treatment as the companies and associations of the most-favoured nation.

Article 26.

The Agreement of January 29, 1921¹, regulating the commercial relations between France and Canada shall cease from operation at the date of the coming into force of the present Convention ; and so shall the commercial Convention of 1907², amended in 1909³, in so far as it was kept in force by the said Agreement.

Article 27.

This Convention after being approved by the French Chambers and by the Parliament of Canada shall be ratified and the ratifications exchanged at Paris as soon as practicable. It shall come into force immediately after the completion of that formality and shall remain in force until terminated by either of the High Contracting Parties after six months' notice to the other Party.

In witness whereof the respective Plenipotentiaries have signed this Convention and have affixed thereto their seals.
