¹ Entré en vigueur le 9 octobre 1933.

Article 2.

The same validity shall be conferred on certificates of airworthiness issued by the competent authorities of the Government of the United States in respect of aircraft subsequently registered in Sweden as if they had been issued under the regulations in force on the subject in Sweden provided that in each case a certificate of airworthiness for export has also been issued by the United States authorities in respect of the individual aircraft, and provided that certificates of airworthiness issued by the competent authorities of Sweden in respect of aircraft subsequently registered in the United States of America are similarly given the same validity as if they had been issued under the regulations in force on the subject in the United States.
