*The Canadian Secretary of State for External Affairs to the American Ambassador*

DEPARTMENT OF EXTERNAL AFFAIRS  
CANADA

Ottawa, March 30th, 1946

Excellency:

I have the honour to refer to discussions which have recently taken place between representatives of our Governments on the subject of war surpluses and related matters. It is my understanding that these representatives have agreed on the following proposals which are acceptable to the Canadian Government.

2. With regard to defence installations and equipment owned by the United States Government and located in Canada and not yet otherwise disposed of, the two Governments have found it mutually advantageous to expedite and simplify the procedure set forth in the 33rd Recommendation of the Permanent Joint Board on Defence and approved by the two Governments, while continuing to accept its underlying principles. To the extent, therefore, that this agreement is inconsistent with the exchange of notes of November 22nd and December 20th, 1944,<sup>1</sup> it shall be regarded as superseding them.

3. It is agreed that for the sum of \$12,000,000.00 (U. S.) the United States Government will transfer to the Canadian Government the following defence installations, projects and/or supplies and equipment connected therewith owned by the United States Government and located in Canada, the original cost price

of which was approximately \$59,000,000.00 (U. S.). In each case the details are listed in appendices to this note, giving approximate original costs, as follows:

- (a) *Immovable Property.*  
Original cost — \$27,882,825.00 — Appendix I.
- (b) *Movable Property in Northwestern Canada.*  
Original cost — \$16,481,811.00 — Appendix II.
- (c) *Movable Property in Northeastern Canada.*  
Original cost — \$197,841.00 — Appendix III.
- (d) *Movable Property Heretofore Reported to Crown Assets Allocation Committee but not Sold.*  
Original cost — \$9,994,650.00 — Appendix IV.
- (e) *United States Navy Property Lend-leased to the United Kingdom, Declared Surplus and left in Canada.*  
Original cost — \$4,349,717.00 — Appendix V.

4. It is understood that United States forces now stationed in Canada will continue to use without cost, until their withdrawal from Canada, such immovable and movable property as they may require but which may be transferred to the Canadian Government under this agreement. Ordinary depreciation, damage, wear, tear and loss in connection with any such property will not be a charge against the United States Government.

5. The Government of the United States will retain the right to recapture certain property necessary for the use of its armed forces in an amount not to exceed 15% of the original cost value of the material listed in Appendix II, page 1, and items 10, 11, 12, 13, 14, 15, 17, 18, 19, 20 and 21 of Appendix II, page 2, totalling approximately \$12,000,000.00. The United States Government will designate in writing to the Canadian Government prior to May 15th, 1946, such articles as it desires to withdraw and appropriate adjustments of the financial settlement covered in paragraph 3 will be arranged.

6. Any United States Government owned property located in Canada which is not transferred to the Canadian Government under this agreement, may be withdrawn from Canada by the United States Government or sold in Canada for United States account, either by negotiation between the two Governments or by War Assets Corporation as has been the procedure heretofore.

7. Lend Lease aircraft, aircraft parts and accessories returned to United States account from the United Kingdom and located in Canada will be disposed of in the following manner:

- (a) The United States Government will indicate in writing to the Canadian Government prior to 30 May, 1946, that property it desires to recapture. The Canadian Government agrees to assist to the best of its ability the United States Government in the preparation for movement and the movement of such property.
- (b) Combat type aircraft, aircraft parts and accessories, left by the United States Government in Canada, will be transferred to Canadian account for salvage without further reimbursement to the United States Government.<sup>1</sup>
- (c) Non-combat type aircraft, aircraft parts and accessories left by the United States Government in Canada will be transferred to the account of the Canadian Government without reimbursement to the United States Government except that when flyable non-combat type aircraft and Anson aircraft containing Lend Lease components are disposed of for use as flyable aircraft, appropriate reimbursement in respect of the Lend Lease content of such complete aircraft will be made to the United States Government by the Canadian Government. The Canadian Government further agrees that flyable non-combat type aircraft other than Ansons will not be disposed of as flyable aircraft outside of Canada without consultation between appropriate agencies of the two Governments. The United States Government agrees that in the case of proposed sales of this type it will not unreasonably withhold its agreement.
- (d) It is further agreed that any similar property which may become available in Canada following May 30th, 1946, shall be dealt with in a like manner, provided that the United States Government shall give thirty days' notice from the date of such property becoming available in Canada of its intention to return such property to the United States.

8. The Canadian Government will designate an agency to coordinate the acceptance of custody of property transferred under this agreement by the United States Government to the Canadian Government. It is understood that the United States Government will not abandon property transferred to the Canadian

Government under this agreement until after having provided a reasonable opportunity for the Canadian Government to arrange for custody.

9. It is understood that this agreement does not affect existing agreements between the two countries relating to the transfer of responsibility from the United States to Canada for defence projects.

10. At the request of the Canadian Government, and in order to provide equipment necessary for the training programmes of the Canadian armed forces, the United States Government will endeavour to make available surplus military type equipment, up to April 1st, 1947, in such quantities and at such prices as may be negotiated between the two Governments up to a maximum cost of \$7,000,000.00 (U.S.). The Canadian Government will make a payment on account into a suspense account of the United States Government of \$7,000,000.00 (U.S.) to apply against such purchases. If the United States Government is unable to provide under this agreement the amount of equipment that the Canadian Government desires to purchase and therefore the payment on account should exceed the amount finally determined to be payable, the excess remaining in the suspense account will be returned to the Canadian Government.

11. The effective date of this agreement shall be March 31st, 1946, except that with regard to sales of movables concluded and invoiced by War Assets Corporation on or before that date, the Canadian Government will make payment to the United States Government in accordance with existing agreements. During the period in which the negotiations have been in progress, and pending the coming into force of the agreement, the United States Government has undertaken and undertakes not to remove from Canada any of the property covered by the agreement.

12. If the foregoing is acceptable to the Government of the United States, this note and your reply thereto shall be regarded as placing on record the understanding arrived at between our Governments.

Accept, Excellency, the renewed assurances of my highest consideration.
