Any wireless station, submarine cable, land line or other installation so established shall be sited and operated in such a way that it will not cause interference with established civil communications.

(4) When submarine cables established in accordance with paragraph (1) of this Article are no longer required for the purposes of this Agreement, their disposal or further use shall be subject to consultation between the Contracting Governments and, in the absence of agreement, they shall be removed by and at the expense of the Government of the United States of America.

The cost of acquisition of any right of way over private property shall be borne by the Contracting Governments in such proportions as are agreed between them.

Article IV

PROVISION OF SITE

(1) The Government of the United Kingdom shall, with the concurrence of the Government of Barbados, provide so long as this Agreement remains in force such Site for the purpose of the establishment and operation of the Oceanographic Research Station as may be agreed between the Contracting Governments to be necessary for that purpose.
