### *Article 3*

The designations listed in annex B of this Agreement shall be reserved exclusively for Greek products or goods in the territory of the Federal Republic of Germany and may be used there only under the conditions laid down in the legislation of the Kingdom of Greece. However, particular provisions of the said legislation may at any time be declared inapplicable by means of a special protocol.

### *Article 4*

1. Where one of the designations listed in annexes A and B of this Agreement is used commercially in a manner contrary to the provisions of articles 2 and 3 on products or goods or their packaging or external packing, on bills, shipping documents or other commercial documents or in advertisements, such use shall be restrained by all judicial and administrative means provided for by the legislation of the respective Contracting States, including confiscation, where the latter is permitted by the legislation in question.

3. The provisions of this article shall not apply to products or goods being conveyed in transit.

In such cases, the products or goods shall be turned back if they are not accompanied by the certificate.

3. When making an application under paragraph 2, the Contracting State in question shall notify the other Contracting State of the authorities empowered to issue the certificate. Such notification shall be accompanied by a model of the certificate.

Subject to the above-mentioned conditions, the associations and organizations in question may also make claims or file objections in criminal proceedings, provided that the legislation of the Contracting State in which the proceedings are conducted makes provision for such claims or objections.

#### *Article 8*

Save as provided in paragraphs 4 and 6 of the Protocol to this Agreement, products and goods, packing, bills, shipping documents and other commercial documents which at the time of the entry into force of this Agreement are situated in the territory of one of the Contracting States and legally bear marks of origin whose use is prohibited by this Agreement may be sold or used for a period of two years after the entry into force of this Agreement.

#### *Article 9*

1. The lists contained in annexes A and B of this Agreement may be amended or supplemented by either Contracting State by notification in writing, subject to the consent of the other Contracting State. However, either Contracting State may limit the list of designations for products or goods originating in its own territory without the consent of the other Contracting State.

2. Where the list of designations for products or goods originating in the territory of one Contracting State is amended or supplemented, the provisions of article 8 shall apply, it being understood that the two-year period shall commence upon publication by the other Contracting State of the amendment or supplement.

#### *Article 10*

The provisions of this Agreement shall not preclude such protection as is or may hereafter be afforded in one of the Contracting States, under domestic law or other international agreements, to the designations of the other Contracting State listed in annexes A and B of this Agreement.

#### *Article 11*

1. To facilitate the implementation of this Agreement, a Mixed Commission consisting of representatives of the Government of each Contracting State shall be established.
