No. 8871. CONTRACT<sup>1</sup> BETWEEN INTERNATIONAL ATOMIC ENERGY AGENCY, SPAIN AND THE UNITED STATES OF AMERICA FOR THE LEASE OF ENRICHED URANIUM FOR A RESEARCH REACTOR IN SPAIN. SIGNED AT VIENNA, ON 23 JUNE 1967

---

WHEREAS the Government of Spain (hereinafter called "Spain"), desiring to establish a research project for peaceful purposes consisting of the CORAL-I reactor (hereinafter called the "reactor"), has requested the assistance of the International Atomic Energy Agency (hereinafter called the "Agency") in securing the special fissionable material necessary for this purpose;

WHEREAS the Board of Governors of the Agency approved the project on 16 June 1967 and the Agency and Spain are this day concluding an agreement (hereinafter called the "Project Agreement")<sup>2</sup> for the provision by the Agency of the assistance requested by Spain;

WHEREAS the Agency and the Government of the United States of America (hereinafter called the "United States") on 11 May 1959 concluded an Agreement for Co-operation (hereinafter called the "Co-operation Agreement"),<sup>3</sup> under which the United States undertook to make available to the Agency pursuant to its Statute<sup>4</sup> certain quantities of special fissionable material; and

WHEREAS Spain has made arrangements with a manufacturer in the Federal Republic of Germany (hereinafter called the "Manufacturer") for the fabrication of enriched uranium into fuel elements for the reactor;

NOW, THEREFORE, the Agency, Spain and the United States Atomic Energy Commission (hereinafter called the "Commission"), acting on behalf of the United States, hereby agree as follows :

### *Article I*

#### DEFINITIONS

*Section 1.* As used in this Contract :

(a) The term "base charge" means the United States dollar amount per unit of enriched uranium in standard form and specification in effect as of the

---

<sup>1</sup> Came into force on 23 June 1967, upon signature, in accordance with article XXII.

<sup>2</sup> See p. 169 of this volume.

<sup>3</sup> United Nations, *Treaty Series*, Vol. 339, p. 359.

<sup>4</sup> United Nations, *Treaty Series*, Vol. 276, p. 3, and Vol. 471, p. 334.

time any particular transaction under this Contract takes place, as set forth in schedules published by the Commission in the United States Federal Register from time to time. The base charges in effect on the date of entry into force of this Contract are :

<i>Percentage Enrichment by Weight in the Isotope <math>^{235}\text{U}</math> of the Enriched Uranium</i>	<i>Price US\$/g of Enriched Uranium in the Form of Uranium Hexafluoride</i>
90 . . . . .	10.808
92 . . . . .	11.061
93 . . . . .	11.188
94 . . . . .	11.315

(b) The term " Commission facility " means a laboratory, plant, office, or other establishment operated by or on behalf of the Commission.

(c) The term " Commission's established specifications " means the specifications for purity and other physical or chemical properties of enriched uranium, as published by the Commission in the United States Federal Register from time to time.

(d) The term " value " means the United States dollar amount determined by multiplying the applicable Commission base charge by the number of units, or fractions thereof, of enriched uranium involved, whether or not such material is in standard form and specification.

(e) The term " established Commission pricing policy " means any applicable price or charge in United States dollars in effect at the time any particular transaction under this Contract takes place (i) published by the Commission in the United States Federal Register, or (ii) in the absence of such a published figure, determined in accordance with the Commission's pricing policies. A statement of such pricing policies will be furnished upon request. The Commission's published prices and charges, as well as its pricing policies, may be amended from time to time.

(f) The term " standard form " means the chemical form of enriched uranium, as published by the Commission in the United States Federal Register from time to time.

## *Article II*

### LEASE OF FUEL MATERIAL

*Section 2.* Subject to the provisions of the Co-operation Agreement, the Commission shall lease to the Agency and the Agency shall lease from the Commission approximately 11.56 kilograms of uranium enriched to approximately 90 per cent by weight in the isotope uranium-235 (hereinafter called the " leased fuel material "), the precise quantities to be determined pursuant to Section 7(b).

*Section 3.* The Agency shall lease to Spain and Spain shall lease from the Agency the leased fuel material.

### *Article III*

#### TERM OF LEASE, TERMINATION

*Section 4.* The lease specified in Section 2 shall commence at the time when Spain, acting on behalf of the Agency, takes delivery of the leased fuel material pursuant to Article IV. It shall terminate on 31 December 1970, provided that this lease may be extended by mutual agreement of the parties.

*Section 5.* Any party may specify an earlier termination date by giving sixty days' notice to the other parties if any obligation of the Co-operation Agreement or of this Contract has not been fulfilled by the other parties thereto. The Agency may specify such earlier termination date :

- (i) Under the conditions specified in Article XII.A.7 and XII.C of its Statute; or
- (ii) After consultation with or at the request of Spain, in case of any increase, pursuant to Section 12, in the Base or Use Charges above the rates indicated in Sections 1(a) and 10 respectively.

*Section 6.* The rights and obligations under this Contract, insofar as not specifically restricted to the period of the lease, shall commence on the entry into force of this Contract and shall, to the extent unfulfilled, extend beyond the termination of the lease.

### *Article IV*

#### DELIVERY OF THE LEASED MATERIAL

*Section 7.* The conditions of the delivery of the leased fuel material shall be as follows :

(a) In accordance with supply arrangements between the Commission and the European Atomic Energy Community, the Commission shall make available enriched uranium in the standard form meeting the Commission's established specifications as of the date of this Contract for fabrication by the Manufacturer of the leased fuel material.

(b) Upon completion of the fabrication, Spain shall cause the Manufacturer to submit to the Agency and to the Commission a written certification of the Manufacturer's determination of the enrichment by weight in the isotope uranium-235 and of the quantity of enriched uranium in the leased fuel material. This determination may be checked by the Agency, by Spain, and by the Com-

mission by means of any review or analysis that any of them may deem appropriate, and shall be approved or revised by unanimous agreement of the parties prior to transfer from the Manufacturer. The quantity and enrichment shown in the agreed determination shall be considered to be the quantity and enrichment of the leased fuel material actually transferred under Article II and shall be used for the calculation of the payments required to be made pursuant to Articles V and VI. Concurrently with the submission of the Manufacturer's determination, Spain, acting on behalf of the Agency, and in consultation with the Manufacturer, shall specify in writing to the Commission a date and site for the transfer of the leased fuel material from the Manufacturer.

(c) Upon the unanimous agreement of the Agency, Spain and the Commission on the quantity and enrichment of the isotope uranium-235 in the leased fuel material, the Commission shall authorize the transfer of the leased fuel material from the Manufacturer to Spain acting on behalf of the Agency. Thereupon Spain shall, on behalf of the Agency and upon compliance with paragraph 3 of Annex B to the Project Agreement, be responsible for transportation of the leased fuel material from the transfer site and for delivering, storing and physically handling such material, and shall pay all costs in connection therewith, including the cost of containers and packaging. At the time of taking possession of the leased fuel material at the transfer site, Spain shall forward a written receipt therefor to the Agency and to the Commission on behalf of the Agency. Transfer of the leased fuel material from the Manufacturer to Spain, acting on behalf of the Agency, shall constitute delivery of the leased fuel material under this lease.

*Section 8.* Except as otherwise provided herein, title to the leased fuel material shall at all times be vested in the United States.

### *Article V*

#### PAYMENT FOR MATERIAL LOST AND CONSUMED

*Section 9.* (a) The Agency shall pay the Commission and Spain shall pay the Agency for any loss or consumption of the leased fuel material, whether or not such loss or consumption is due to the fault or neglect of the Agency or Spain, or any other cause occurring from the time of delivery of such material hereunder and until such material has been returned to the Commission as provided herein.

(b) Spain shall make reports to the Agency and the Commission, on forms as prescribed by the Commission, to accurately reflect all losses or consumption of leased fuel material as then known to Spain. In reporting leased fuel material as lost or consumed, Spain shall make reasonable effort to accurately fix the time of such loss or consumption on the basis of a specific occurrence or in accordance with accepted procedures and methods of calculating loss or consumption.

(c) The amount due to the Commission for leased fuel material lost or consumed shall be the value of such material computed in accordance with this Contract, as of the time of such loss or consumption. Upon payment to the Commission of the amount due, title to such material shall pass from the Commission to the Agency and shall thereafter immediately and automatically vest in Spain.

### *Article VI*

#### USE-CHARGE PAYMENT

*Section 10.* The Agency shall pay the Commission and Spain shall pay the Agency a use-charge for the leased fuel material subject to this Contract, as provided in Article VII. The rate of use-charge shall be the Commission's published rate of annual (365-day basis) use-charge in effect for the period covered by the Commission's invoice. The present rate of use-charge is 4.75 per cent.

### *Article VII*

#### ESTABLISHMENT OF LEASE ACCOUNT

*Section 11.* (a) The Commission will establish a lease account to which will be debited, as provided herein, the amount equal to the value of the leased fuel material subject to this Contract. Such account will be credited, as provided herein, with the amount or amounts equal to the value of the leased fuel material returned or paid for, in accordance with this Contract. The daily balance of this account shall be used for computing the amount due to the Commission for use-charges. The value of leased fuel material reflected in this account after credit for the value of leased fuel material returned and for payments for leased fuel material lost or consumed or purchased shall represent the amount due to the Commission for leased fuel material not returned or paid for.

(b) The lease account will be debited for material furnished as of the date the leased fuel material is transferred to the Agency or, at the Agency's request and on its behalf, to Spain, pursuant to Article IV.

(c) The lease account will be credited for leased fuel material returned to the Commission only when the material is returned in accordance with Article XI. Except as otherwise provided in this Contract, the lease account will be credited for leased fuel material returned to the Commission as of the date the material is delivered to a location specified by the Commission pursuant to this Contract. Credit for leased fuel material paid for will be made as of the date payment is received by the Commission.

(d) Whenever the Commission changes any applicable base charge as provided in Article VIII, the value of leased fuel material recorded in the lease

account will be recomputed at the new base charge; provided that the value of leased fuel material lost or consumed or purchased as of the date of such change shall not be recomputed. Subsequent to the effective date of the change in the applicable base charge, the new base charge will be used in determining the value of leased fuel material lost or consumed or purchased and for computing the value of leased fuel material subject to use-charges.

(e) The Agency and Spain will be notified of the credits made to the lease account as the result of return of leased fuel material, and of any changes in the value of leased fuel material in such account as a result of changes in the applicable base charges. The Agency and Spain will promptly notify the Commission of any disagreement with, discrepancies or errors in, such notices.

### *Article VIII*

#### CHANGES IN RATE OF USE-CHARGE BASE CHARGES, STANDARD FORM AND/OR SPECIFICATIONS

*Section 12.* The rate of use-charge, base charges, standard form, and specifications for material furnished under this Contract are subject to change by the Commission in accordance with the United States Atomic Energy Act of 1954, as amended.

*Section 13.* Any increase in base charges or any changes in the standard form or in the Commission's established specifications shall require at least one hundred and eighty (180) days' notice to the Agency and to Spain, by publication or otherwise. Any increase in the rate of use-charge shall require at least thirty (30) days' notice to the Lessee by publication or otherwise.

### *Article IX*

#### POSSIBLE TRANSFER OF TITLE

*Section 14.* At any time during the period of the lease, Spain may acquire title to any of the leased fuel material by paying to the Commission, on behalf of the Agency, a sum equal to the base charge for such fuel material. At the end of the month in which the Commission receives such payment, title to the fuel material in question shall automatically vest in the Agency and shall thereafter immediately and automatically vest in Spain.

*Section 15.* Upon any transfer of title pursuant to Section 14, the lease shall immediately terminate with respect to the fuel material in question and no further charges pursuant to Article VI shall accrue with respect to such fuel material.

*Article X*

## USE AND TRANSFER

*Section 16.* Unless otherwise agreed, Spain shall not use any leased fuel material otherwise than in the CORAL-I reactor, nor transfer any such material outside the jurisdiction of the contracting States.

*Article XI*

## RETURN OF LEASED FUEL MATERIAL

*Section 17.* The Agency shall be responsible to the Commission for the return of all leased fuel material subject to this Contract, other than material which has been lost or consumed or to which title has been transferred to the Agency by purchase or gift, at or before the date of termination of the lease in accordance with Section 4.

*Section 18.* At or before such date of termination Spain shall, at the Agency's request and on its behalf, and after giving ninety days' notice to the Agency and the Commission, return to the Commission any leased fuel to which it has not obtained title.

*Section 19.* Except as provided in Section 21, the leased fuel material will be returned directly to the Commission in the standard form and in accordance with the Commission's established specifications in effect as of the date the material is returned after having been reprocessed in facilities acceptable to the Agency and the Commission.

*Section 20.* Upon receipt of Spain's notice of intention to return the leased fuel material, the Commission will notify the Agency and Spain as to the acceptability of such material pursuant to this Contract, and, if appropriate, as to the Commission facility or location designated for return of the leased fuel material. Spain shall, on behalf of the Agency, at the time of shipment of the leased fuel material, notify the Commission of the facility or other location to which shipment will be made and of the date and method of shipment, and expected date of arrival.

*Section 21.* (a) The Commission may at its sole discretion accept the leased fuel material in a form and specification other than as provided in Section 19. Unless the Commission shall determine that acceptance of the material in its existing form is in the best interests of the United States, the Agency shall pay the Commission's service charge for processing such returned material so as to enable it to satisfy the Commission's established specifications in effect at the time the material is returned and Spain shall pay the Agency an equivalent amount. Such charges shall include the Commission's charge for processing as determined in accordance with the established Commission pricing policy then

in effect and an amount, as determined by the Commission, for the value of the leased fuel material consumed during processing. If the leased fuel material, when returned to the Commission, is subject to processing charges under this Section, the Agency shall continue to pay to the Commission and Spain shall continue to pay to the Agency the use-charge on such material until expiration of the processing period as determined by the Commission at the time the material is accepted.

(b) Unless the Commission shall determine that acceptance of such material is in the best interests of the United States, the Agency shall pay to the Commission and Spain shall pay to the Agency for the leased fuel material returned in a form or specification other than as provided in Section 19 a sum equal to the value of the leased fuel material. In addition, the Agency shall also pay to the Commission and Spain shall also pay to the Agency a special service charge, as determined in accordance with established Commission pricing policy in effect at the time the material is returned for the handling, storage and/or disposal of such material.

*Section 22.* The conditions of the return of the leased fuel material shall be as follows :

(a) Spain shall pack the leased fuel material for shipment in containers approved for this purpose by the Agency and the Commission.

(b) Spain shall return the leased fuel material in accordance with appropriate health and safety measures prescribed by the Agency and the Commission, to a port of entry in the United States of America designated by the Commission after consultation with the Agency and Spain.

(c) Upon arrival of the leased fuel material at the port of entry, the Commission shall perform the actions required to authorize the import of such material. Unless otherwise mutually agreed, Spain shall thereafter, on behalf of the Agency, arrange for a carrier, subject to such terms, charges and licences as may be required, to transport such material by commercial conveyance to the Commission. The Commission shall take possession of the leased fuel material at its specified facility or location and shall give an appropriate written receipt therefor, a certified copy of which Spain shall transmit to the Agency.

(d) Spain shall, on behalf of the Agency, pay all costs including costs of containers and necessary packaging for transportation within and outside the United States of America and for transferring and storing the leased fuel material, as well as for physically handling it in connection with the return; such costs shall not be the responsibility of, nor be borne by, the Commission.

(e) The parties may agree that the leased fuel material be returned in more than one shipment, in which case the provisions of this Contract shall apply, as appropriate, to each shipment.

*Article XII*

## PERFORMANCE OF THE COMMISSION'S OBLIGATIONS; BILLING

*Section 23.* (a) The Commission may fulfil its obligations under this Contract through the operator of any of its facilities.

(b) Billings for amounts due to the Commission under this Contract will ordinarily be made (1) following receipt of notice of loss or consumption or following purchase of the material subject to this lease, and (2) semi-annually for use-charge.

(c) All bills rendered by or on behalf of the Commission are due sixty (60) days from the date of invoice and shall be paid in currency of the United States of America. The Agency shall pay interest at the rate of six (6) per cent per annum (365-day basis) on all amounts not received by the Commission within sixty (60) days from date of invoice, such interest to commence on the sixty-first (61st) day from the date of invoice.

*Article XIII*

## PROCEDURE OF PAYMENT

*Section 24.* Payment shall be made by Spain to the Agency and by the Agency to the Commission or its designated agent or contractor, in United States currency. Spain shall pay the Agency within thirty days after receipt of the Agency's invoice, to be dispatched after receipt of the Commission's invoice, and Spain shall reimburse the Agency for, or, at the Agency's request and on its behalf, Spain shall pay directly to the Commission, any additional interest charge.

*Article XIV*

## DISCLAIMER, RESPONSIBILITY AND LIABILITY

*Section 25.* Neither the Agency, the United States, the Commission, nor persons acting on behalf of the Commission warrant that the leased fuel material (a) will not result in injury or damage when used for any purpose, or is (b) of merchantable quality, or (c) fit for any particular purpose.

*Section 26.* Neither the Agency nor the Commission shall be liable for any failure to transport and deliver the leased fuel material in accordance with the date specified in Section 7(b).

*Section 27.* The Agency shall assume full responsibility to the Commission, during the period of the lease, for the leased fuel material, including any loss, destruction, contamination or consumption thereof. Spain shall be equally responsible to the Agency.

*Section 28.* Neither the Agency nor any person acting on its behalf shall at any time bear any responsibility towards Spain or any person claiming through Spain for the safe handling and the use of the leased fuel material.

*Section 29.* Neither the United States nor the Commission, nor any person acting on behalf of the Commission, shall bear any responsibility for the safe handling and the use of the leased fuel material before its return in accordance with Article XI.

*Section 30.* The Agency shall hold harmless the Commission and Spain shall hold harmless the Agency against any liability from any cause arising in connection with the leased fuel material during the period of the lease.

*Section 31.* Unless expressly waived in writing by the Agency and the Commission, Spain agrees to indemnify the Agency, the United States, the Commission, or any person acting on behalf of the Agency or the Commission, against liability, and resultant costs and expenses incurred, for infringement of any patent occurring in the utilization by Spain of the leased fuel material.

#### *Article XV*

#### DETERMINATION OF QUANTITIES AND PROPERTIES OF LEASED FUEL MATERIAL RETURNED TO THE COMMISSION; RESOLUTION OF MEASUREMENT DIFFERENCES

*Section 32.* (a) The following provisions and procedures shall apply to the determination of quantities and properties of material, and the resolution of measurement differences resulting from such determination with respect to leased fuel material which is returned directly to a Commission facility. For the purposes of this article, the terms "shipper" and "receiver" shall refer respectively to Spain acting on behalf of the Agency and to the Commission. The shipper will promptly furnish the receiver a statement of the quantities and properties of the material transferred including a statement of the gross weight of the container plus material and the tare weight of such container.

- (1) The Commission samples obtained at a Commission facility using the Commission's procedures will be the official samples and shall be binding upon the Commission, the shipper and the umpire unless the Commission and the shipper agree upon the use of other samples, procedures or sampling locations.
- (2) The following provisions and procedures apply to the determination of the net weight of material transferred as determined by the gross weight of the container plus material less the tare weight of such container. The net weight of material transferred shall be determined prior to acceptance of

delivery by the Commission at a Commission facility using the Commission's procedures and facilities unless the Commission and the shipper agree upon other procedures or facilities. The shipper shall be given an opportunity to observe, at the shipper's expense, the weighing of the container and the container plus material and the taking of official samples by the Commission, by the Commission's notifying the shipper of the dates and places for observance of such events. The net weight of material transferred shall be as determined by the results of such weighings and shall not be subject to the provisions of sub-paragraphs (3) and (4) below.

- (3) If, after determination pursuant to (2) above of the net weight of the material transferred, the receiver does not accept the shipper's statement of the other quantities and properties of the material transferred, the receiver shall within thirty (30) days after the receipt of the material or the shipper's statement of quantities and properties, whichever is later, submit a notice of disagreement in writing to the shipper. The notice of disagreement shall include measurement and/or analysis data supporting the disagreement. If such notice of disagreement is not submitted within such thirty (30) days, the shipper's measurements will be final and binding upon both parties. Unless the disagreement is with respect to specification limits, the receiver may use or dispose of the material in any manner it sees fit.
- (4) In the case of a disagreement concerning results obtained from analysis of a sample which is not resolved by mutual agreement, an official sample shall be submitted to an umpire mutually agreed upon for analysis. The umpire's results shall be conclusive on both parties.
  - (i) In the case of a disagreement with respect to whether or not the material is within specification limits, the receiver will pay the umpire cost if the umpire's result is within specification limits, and the shipper will pay the umpire cost if the umpire's result is not within specification limits.
  - (ii) In the case of a disagreement with respect to quantitative determinations within specification limits, the party whose result is furthest from the umpire's result will pay the umpire cost; provided that in the event the umpire's result is equidistant between the shipper's and the receiver's results, the parties will each bear one half of the umpire cost.
  - (iii) As used in this sub-paragraph (4), the phrase "umpire cost" means the umpire's charges plus the additional cost, if any, of the packaging, handling and transporting of the official sample to and from the umpire. In the event that the umpire is to employ an official sample for more than one determination, the foregoing costs of packaging, handling and transporting shall be allocated as mutually agreed by the parties prior to the furnishing of the sample to the umpire.

(b) The quantity and properties of irradiated material subject to this Contract and returned directly to the Commission under a contract providing for

chemical processing and financial settlement will be determined in accordance with the provisions and procedures agreed upon in such contract.

### *Article XVI*

#### ADJUSTMENT OF USE-CHARGES; RESOLUTION OF DIFFERENCES

*Section 33.* The period of time during which use-charges shall accrue under this Contract with respect to returned leased fuel material subject to a measurement disagreement hereunder shall be adjusted as follows :

(a) No use-charge shall accrue between the date of receipt of the shipment and the shipper's receipt of notice of disagreement. Use-charges shall accrue between shipper's receipt of notice of disagreement and the date of resolution or the date of use or disposition of the material by the Commission (when mutually agreed upon), whichever occurs first, unless the disagreement is resolved in favour of the shipper.

(b) Where an umpire is used and the umpire's results are equidistant from those of the parties, no use-charge shall accrue for one half of the period between the date of receipt of notice of disagreement and the date of resolution or the date of use or disposition of the material by the Commission (when mutually agreed upon), whichever occurs first.

(c) Where the disagreement is resolved by mutual agreement, the period of use-charge shall be included in and settled by mutual agreement.

The above use-charges shall apply to the total of the material whose quantity or other characteristics are involved, and not to the amount represented by any difference of the measurements.

### *Article XVII*

#### OFFICIALS NOT TO BENEFIT

*Section 34.* No Member of the Congress of the United States of America or Resident Commissioner of the United States of America shall be admitted to or share any part of this Contract or any benefit that may arise therefrom.

### *Article XVIII*

#### ASSIGNMENT OF RIGHTS AND INTERESTS

*Section 35.* Neither the Agency nor Spain may transfer any right or interest under this Contract to any third State.

*Article XIX*

## WAIVER OF RIGHTS BY COMMISSION

*Section 36.* (a) Nothing in this Contract shall require the Agency or Spain to pay any charges or observe any provisions of, or established pursuant to, this Contract if the Commission, in accordance with statutory or other authority available to it, determines that such charges or provisions are not applicable.

(b) In order to assist and encourage research on peaceful uses or for medical therapy, the Commission has in each calendar year offered to distribute to the Agency, free of charge, special fissionable material of a value up to US\$ 50,000 at the time of transfer to be supplied from the amounts specified in Article II A of the Co-operation Agreement. If the Commission finds the project to which this Contract relates eligible it shall decide by the end of the calendar year in which this Contract is concluded on the extent, if any, to which the project shall benefit by the gift offer, and shall promptly notify the Agency and Spain of that decision. The obligations of the Agency and Spain under this Contract shall be reduced in accordance with the value of any free material thus made available.

*Article XX*

## SETTLEMENT OF DISPUTES

*Section 37.* If the parties should be unable to reach agreement with respect to the determination provided for in sub-section 7(b) within thirty days of the submission of such determination to them by the Manufacturer, any party may request that such a determination be made by a laboratory agreed upon by all parties. The laboratory may perform any tests or analyses that it may deem necessary, and all parties agree to facilitate its work in every way. The results of the determination by the laboratory shall be considered as final and binding on all parties. The costs of the determination by the laboratory shall be borne equally by the parties, provided that if the determination insisted on by any party or parties is confirmed by the laboratory such party or parties shall not be obliged to bear any share of the costs.

*Section 38.* Any other dispute arising out of the interpretation or application of this Contract, excepting a dispute involving a determination of quantities and properties of returned leased fuel material, which is not settled by negotiation or as may otherwise be agreed by the parties concerned shall on the request of any party be submitted to an arbitral tribunal composed as follows :

(a) If the dispute involves only two of the parties to this Contract, all three parties agreeing that the third is not concerned, the two parties involved shall each designate one arbitrator, and the two arbitrators so designated shall elect a third, who shall be the Chairman. If within thirty days of the request for arbitration either party has not designated an arbitrator, either party to the dispute may request the President of the International Court of Justice to appoint an arbitrator. The same procedure shall apply if, within thirty days of the designation or appointment of the second arbitrator, the third arbitrator has not been elected.

(b) If the dispute involves all three parties to this Contract, each party shall designate one arbitrator, and the three arbitrators so designated shall by unanimous decision elect a fourth arbitrator, who shall be the Chairman, and a fifth arbitrator. If within thirty days of the request for arbitration any party has not designated an arbitrator, any party may request the President of the International Court of Justice to appoint the necessary number of arbitrators. The same procedure shall apply if, within thirty days of the designation or appointment of the third of the first three arbitrators, the Chairman or the fifth arbitrator has not been elected. A majority of the members of the arbitral tribunal shall constitute a quorum, and all decisions shall be made by majority vote. The arbitral procedure shall be established by the tribunal, whose decisions, including all rulings concerning its constitution, procedure, jurisdiction and the division of the expenses of arbitration between the parties, shall be binding on all parties. The remuneration of the arbitrators shall be determined on the same basis as that of *ad hoc* judges of the International Court of Justice under Article 32, paragraph 4, of the Statute of the Court.

## Article XXI

### NOTICES

*Section 39.* (a) Any notice required under this Contract to be submitted to the Commission shall be addressed to :

Director  
Division of International Affairs  
United States Atomic Energy Commission  
Washington, D.C. 20545

(b) Any notice required under this Contract to be submitted to the Agency shall be addressed to :

Director  
Division of Nuclear Power and Reactors  
International Atomic Energy Agency  
A-1010 Vienna

(c) Any notice required under this Contract to be submitted to Spain shall be addressed to :

Junta de Energía Nuclear  
Avda. Complutense  
Madrid-3

*Article XXII*

ENTRY INTO FORCE

*Section 40.* This Agreement shall enter into force upon signature by or for the Director General of the Agency and by the authorized representatives of the Commission and Spain.

DONE in Vienna, on the 23rd day of June 1967, in triplicate in the English language.

For the International Atomic Energy Agency :  
Sigvard EKLUND

For the Government of Spain :  
A. CIRERA Y PRIM

For the United States Atomic Energy Commission  
on behalf of the Government of the United States of America :  
Henry DE WOLF SMYTH
