I

AMBASSADE DE CORÉE EN FRANCE

S.E.-175

The Embassy of the Republic of Korea presents its compliments to the Ministry of Foreign Affairs of the Kingdom of the Netherlands and has the honour to refer to recent discussions between the Embassy and the Ministry concerning the joint Korean-Netherlands Aerial Photo Survey project which is being executed in Korea since 1966.

The Embassy formally confirms on behalf of the Government of the Republic of Korea the Memorandum of Agreement, and its Annex, signed at Seoul on 13 August 1966 by the competent Korean authority, being the Minister of Construction of the Republic of Korea, and by Her Majesty's Ambassador at Tokyo acting upon instructions of the Netherlands competent authority, being the Director of Technical Assistance in the Ministry.

It is understood between the two Governments

- that the Netherlands contribution to the project already executed including equipments, materials and technical services necessary for the survey will be regarded as grant-in-aid by the Netherlands Government to the Korean Government;
- that the remaining part of the project, which will also be regarded as grant-in-aid by the Netherlands Government to the Korean Government, will be executed pursuant to the Memorandum of Agreement and its Annex;
- that the project will be formally terminated at the receipt of the final result of the survey by the Korean Government.

The Embassy suggests that the present note and the Ministry's reply confirming the above arrangement on behalf of the Government of the Kingdom

## MEMORANDUM OF AGREEMENT

The attached draft agreement between the Kingdom of the Netherlands and the Republic of Korea concerning a joint Netherlands-Korean Aerial Survey, drawn up pursuant to the Joint Statement signed on September 23, 1965 at The Hague by the Netherlands Minister in Charge of Development Aid on the one hand, and the Chairman of the Presidential Economic Cooperation and Goodwill Mission of the Republic of Korea on the other, now having been in principle approved by both parties, the undersigned, representing their respective governments, declare herewith, pending the finalization of the technical details of the said agreement, on this thirteenth day of August nineteen hundred sixty-six, to have reached agreement on the tenor of this draft, in witness whereof they hereunto affix their hands.

The Netherlands Ambassador  
to the Republic of Korea :

R. H. VAN GULIK

The Minister of Construction  
of the Republic of Korea :

CHUN YE-YONG

DRAFT OF AGREEMENT FOR AERIAL PHOTO SURVEY PROJECT,  
AUGUST 13, 1966, BETWEEN THE REPUBLIC OF KOREA AND THE  
KINGDOM OF THE NETHERLANDS

Chapter I

GENERAL

*Article 1*

IDENTIFICATION OF THE AGREEMENT

This agreement shall be called "General Agreement for Joint Korea-Netherlands Aerial Photo Survey Project" (hereinafter referred as agreement).

*Article 2*

PURPOSE OF THIS AGREEMENT

The purpose of this agreement is to enable successful unhampered operation of the pending aerial photo survey project for 30,000 square kilometers by establishing the limitations of financial and technical responsibilities, defining its scope and the tasks of the two governments.

*Article 3*

EFFECTIVE DURATION OF THIS AGREEMENT

This agreement is effective from the time immediately following the signing of this agreement by the representatives of the two nations until the completion of this project.

*Article 4*

## APPLICABILITY OF THIS AGREEMENT

This agreement is applicable only to matters relevant to the Joint Korea-Netherlands Aerial Photo Survey Project.

## Chapter II

## PROJECT

*Article 5*

## TITLE OF THE PROJECT

The official title of the project will be "The Joint Korea-Netherlands Aerial Photo Survey Project".

*Article 6*

## TARGET OF THE PROJECT

The primary target of this project is to have accurate and up-to-date maps of the west coast, of the selected area on the south-east coast and of Cheju Island because such maps are urgently required for a national land development plan which will include land reclamation, flood control, and irrigation.

It is anticipated that, through this joint project for an initial 30,000 square kilometers, a reasonable number of Korean engineers and technicians will be trained so that they will be capable of conducting aerial survey projects in the future using the aerial photo surveying equipment as will be made available by the Netherlands Government.

*Article 7*

## PURPOSE OF THE PROJECT

The purpose of the project is summarized as follows :

1. Production of up-to-date and accurate basic topographic maps on a scale of 1 : 25,000.
2. Accurate feasibility surveys for developing water resources, developing farming land, afforestation, erosion control, planning for land utilization and development, and other surveys which may be conducted effectively using aerial photographs.

*Article 8*

## AREA AND LOCATION TO BE COVERED UNDER THIS PROJECT

The areas to be covered under this project total approximately 30,000 square kilometers and include :

1. Seoul-Inchon especial district, Susan-Asan Bay for land reclamation, Piin for development of industrial site, Mokpo-Yongsan River district for overall development scheme, and other West Coast areas (see enclosed map)<sup>1</sup>).
2. Selected areas of Cheju Island for overall development.
- 3 Along the down stream of Naktong River for overall development.

#### *Article 9*

##### RESPONSIBILITY AND TASKS OF KOREA AND OF THE NETHERLANDS

The responsibility and tasks of the two participating nations for this joint project are outlined roughly as follows :

1. Tasks of the Republic of Korea :
  - a) Ground control survey for about 600 levelling points and triangulation of about 100 points.
  - b) Preparing pass points.
  - c) Detailed mapping for an area of 30,000 square kilometers (basic survey map of 1 : 25,000).
  - d) Obtaining military security clearance and other clearance or permits, as may be required, for the project.
  - e) Undertaking all administrative matters related to the project.
  - f) Training of its own engineers and technicians locally.
  - g) Producing 1 : 25,000 scale maps.
  - h) Conducting general land surveys with utilization of aerial photos.
2. Tasks of the Netherlands Government :
  - a) Aerial photo-taking for areas totalling about 30,000 square kilometers on a scale of 1 : 40,000.
  - b) Development of negatives, production of necessary number of copies of positive paper printing and diapositives for about 30,000 square kilometers.
  - c) Establish aero-triangulation for about 30,000 square kilometers.
  - d) Render assistance by providing photographic and photomapping equipment to Korea.
  - e) Training of a number of Korean engineers and technicians in the Netherlands.
  - f) Produce ortho-photo maps on a scale of either 1 : 10,000 or 1 : 12,500 for inland accidented terrain which constitutes about 80 per cent of the 30,000 square kilometers of the survey.

#### *Article 10*

##### FINANCIAL MATTERS

Expenses to be incurred on items listed under article 9 above will be borne by the respective governments.

<sup>1</sup> This map has not been printed.
