(c) the term “ designated airline ” means an airline which one Contracting Party shall have designated, by written notification to the other Contracting Party, in accordance with Article 3 of the present Agreement, for the operation of air services on the routes specified in such notification ;

---

<sup>1</sup> Came into force on 4 March 1968 by signature, in accordance with article 15.

<sup>2</sup> United Nations, *Treaty Series*, Vol. 15, p. 295. For the texts of the Protocols amending this Convention, see Vol. 320, pp. 209 and 217 ; Vol. 418, p. 161, and Vol. 514, p. 209.

(d) the term “change of gauge” means the operation of an air service by a designated airline in such a way that one section of the route is flown by aircraft different in capacity from those used on another section ;

(e) the term “territory” in relation to a State means the land areas and territorial waters adjacent thereto under the sovereignty, suzerainty, protection or trusteeship of that State ; and

(f) the terms “air service”, “international air service”, “airline” and “stop for non-traffic purposes” have the meanings respectively assigned to them in Article 96 of the Convention.

(2) The Schedule to this Agreement forms an integral part of the Agreement and all references to “the Agreement” shall be deemed to include references to the Schedule except where otherwise provided.

### *Article 2*

(1) Each Contracting Party grants to the other Contracting Party the rights specified in the present Agreement for the purpose of establishing air services on the routes specified in the appropriate Section of the Schedule thereto (hereinafter called “the agreed services” and “the specified routes”).

(2) Subject to the provisions of the present Agreement, the airlines designated by each Contracting Party shall enjoy, while operating an agreed service on a specified route, the following privileges :

- (a) to fly without landing across the territory of the other Contracting Party ;
- (b) to make stops in the said territory for non-traffic purposes ; and
- (c) to make stops in the said territory at the points specified for that route in the Schedule to the present Agreement for the purpose of putting down and taking on international traffic in passengers, cargo and mail.

(3) Nothing in paragraph (2) of this Article shall be deemed to confer on the airlines of one Contracting Party the privilege of taking up, in the territory of the other Contracting Party, passengers, cargo or mail carried for remuneration or hire and destined for another point in the territory of that other Contracting Party.

### *Article 3*

(1) Each Contracting Party shall have the right to designate in writing to the other Contracting Party one or more airlines for the purpose of operating the agreed services on the specified routes.

(2) On receipt of the designation, the other Contracting Party shall, subject to the provisions of paragraphs (3) and (4) of this Article, without delay grant to the airline or airlines designated the appropriate operating authorisation.

(3) The aeronautical authorities of one Contracting Party may require an airline designated by the other Contracting Party to satisfy them that it is qualified to fulfil the conditions prescribed under the laws and regulations normally and reasonably applied by them in conformity with the provisions of the Convention to the operation of international commercial air services.

(4) Each Contracting Party shall have the right to refuse to accept the designation of an airline and to withhold or revoke the grant to an airline of the privileges specified in paragraph (2) of Article 2 of the present Agreement or to impose such conditions as it may deem necessary on the exercise by an airline of those privileges in any case where it is not satisfied that substantial ownership and effective control of that airline are vested in the Contracting Party designating the airline or in nationals of the Contracting Party designating the airline.

(5) At any time after the provisions of paragraphs (1) and (2) of this Article have been complied with, an airline so designated and authorised may begin to operate the agreed services provided that a service shall not be operated unless a tariff established in accordance with the provisions of Article 7 of the present Agreement is in force in respect of that service.

(6) Each Contracting Party shall have the right to suspend the exercise by an airline of the privileges specified in paragraph (2) of Article 2 of the present Agreement or to impose such conditions as it may deem necessary on the exercise by an airline of those privileges in any case where the airline fails to comply with the laws or regulations of the Contracting Party granting those privileges or otherwise fails to operate in accordance with the conditions prescribed in the present Agreement; provided that, unless immediate suspension or imposition of conditions is essential to prevent further infringements of laws or regulations, this right shall be exercised only after consultation with the other Contracting Party.

#### *Article 4*

Fuel, lubricating oils, spare parts, regular aircraft equipment and aircraft stores introduced into the territory of one Contracting Party, or taken on board aircraft in that territory, by or on behalf of the other Contracting Party or its designated airline or airlines and intended solely for use by or in the aircraft of those airlines shall be accorded the following treatment by the first Contracting Party in respect of customs duties, inspection fees and other similar national or local duties and charges :

- (a) in the case of fuel and lubricating oils remaining on board aircraft at the last airport of call before departure from the said territory, exemption ; and
- (b) in the case of fuel and lubricating oils not included under (a) and spare parts, regular aircraft equipment and aircraft stores, treatment not less favourable than that accorded to similar supplies introduced into the said territory, or taken on board aircraft in that territory, and intended for use by or in the aircraft of a national airline of the first Contracting Party, or of the most favoured foreign airline, engaged in international air services. This treatment shall be in addition to and without prejudice to that which each Contracting Party is under obligation to accord under Article 24 of the Convention.

#### *Article 5*

(1) There shall be fair and equal opportunity for the airlines of both Contracting Parties to operate the agreed services on the specified routes between their respective territories.

(2) In operating the agreed services, the airlines of each Contracting Party shall take into account the interests of the airlines of the other Contracting Party so as not to affect unduly the services which the latter provides on the whole or part of the same routes.

(3) The agreed services provided by the designated airlines of the Contracting Parties shall bear close relationship to the requirements of the public for transportation on the specified routes and shall have as their primary objective the provision, at a reasonable load factor, of capacity adequate to carry the current and reasonably anticipated requirements for the carriage of passengers, cargo and mail originating from or destined for the territory of the Contracting Party which has designated the airline. Provision for the carriage of passengers, cargo and mail both taken up and put down at points on the specified routes in the territories of States other than that designating the airline shall be made in accordance with the general principles that capacity shall be related to :

- (a) traffic requirements to and from the territory of the Contracting Party which has designated the airline ;
- (b) traffic requirements of the area through which the airline passes,

after taking account of other transport services established by airlines of the States comprising the area ; and

- (c) the requirements of through airline operation.

#### *Article 6*

A designated airline of one Contracting Party may make a change of gauge at a point in the territory of the other Contracting Party only on the following conditions :

- (a) that it is justified by reason of economy of operation ;
- (b) that the aircraft used on the section more distant from the terminal in the territory of the former Contracting Party are smaller in capacity than those used on the nearer section ;
- (c) that the aircraft of smaller capacity shall operate only in connexion with the aircraft of larger capacity and shall be scheduled so to do ; the former shall arrive at the point of change for the purpose of carrying traffic transferred from, or to be transferred into, the aircraft of larger capacity ; and their capacity shall be determined with primary reference to this purpose ;
- (d) that there is an adequate volume of through traffic ; and
- (e) that the provisions of Article 5 of the present Agreement shall govern all arrangements made with regard to change of gauge.

#### *Article 7*

(1) The tariffs on any agreed service shall be established at reasonable levels, due regard being paid to all relevant factors including cost of operation, reasonable profit, characteristics of service (such as standards of speed and accommodation) and the tariffs of other airlines for any part of the specified route. These tariffs shall be fixed in accordance with the following provisions of this Article.

(2) The tariffs referred to in paragraph (1) of this Article, together with the rates of agency commission used in conjunction with them shall, if possible, be agreed in respect of each of the specified routes between the designated airlines concerned, in consultation with other airlines operating over the whole or part of that route, and such agreement shall, where possible, be reached through the rate fixing machinery of the International Air Transport Association. The tariffs so agreed shall be subject to the approval of the aeronautical authorities of both Contracting Parties.

(3) If the designated airlines cannot agree on any of these tariffs, or if for some other reason a tariff cannot be agreed in accordance with the provisions of paragraph (2) of this Article, the aeronautical authorities of the Contracting Parties shall try to determine the tariff by agreement between themselves.

(4) If the aeronautical authorities cannot agree on the approval of any tariff submitted to them under paragraph (2) of this Article or on the determination of any tariff under paragraph (3), the dispute shall be settled in accordance with the provisions of Article 11 of the present Agreement.

(5) No tariff shall come into force if the aeronautical authorities of either Contracting Party are dissatisfied with it except under the provisions of paragraph (3) of Article 11 of the present Agreement.

(6) When tariffs have been established in accordance with the provisions of this Article these tariffs remain in force until new tariffs have been established in accordance with the provisions of this Article.

#### *Article 8*

Each Contracting Party grants to the designated airlines of the other Contracting Party the right to transfer to their head offices in sterling or the local currency of the airline making the transfer at the prevailing rate of exchange in the official market at the time of remittance all surplus earnings whatever the currency in which they were earned.

#### *Article 9*

The aeronautical authorities of either Contracting Party shall supply to the aeronautical authorities of the other Contracting Party at their request such periodic or other statements of statistics as may be reasonably required for the purpose of reviewing the capacity provided on the agreed services by the designated airlines of the first Contracting Party. Such statements shall include all information required to determine the amount of traffic carried by those airlines on the agreed services and the origins and destinations of such traffic.

#### *Article 10*

There shall be regular and frequent consultation between the aeronautical authorities of the Contracting Parties to ensure close collaboration in all matters affecting the fulfilment of the present Agreement.

*Article 11*

(1) If any dispute arises between the Contracting Parties relating to the interpretation or application of the present Agreement, the Contracting Parties shall in the first place endeavour to settle it by negotiation between themselves.

(2) If the Contracting Parties fail to reach a settlement by negotiation, the dispute may at the request of either Contracting Party be submitted for decision to a tribunal of three arbitrators, one to be nominated by each Contracting Party and the third to be appointed by the two so nominated. Each of the Contracting Parties shall nominate an arbitrator within a period of sixty days from the date of receipt by either Contracting Party from the other of a diplomatic note requesting arbitration of the dispute and the third arbitrator shall be appointed within a further period of sixty days. If either of the Contracting Parties fails to nominate an arbitrator within the period specified or if the third arbitrator is not appointed within the period specified, the President of the Council of the International Civil Aviation Organisation may be requested by either Contracting Party to appoint an arbitrator or arbitrators as the case requires.

(3) The Contracting Parties undertake to comply with any decision given under paragraph (2) of this Article.

(4) If and so long as either Contracting Party or a designated airline of either Contracting Party fails to comply with a decision given under paragraph (2) of this Article, the other Contracting Party may limit, withhold or revoke any rights or privileges which it has granted by virtue of the present Agreement to the Contracting Party in default or to the designated airline or airlines of that Contracting Party or to the designated airline in default.

*Article 12*

(1) If either of the Contracting Parties considers it desirable to modify the terms of this Agreement, it may request consultation between the aeronautical authorities of both Contracting Parties in relation to the proposed modification. Consultation shall begin within a period of sixty days from the date of the request. When these authorities agree on modifications to this Agreement, the modifications shall come into effect when they have been confirmed by an exchange of notes through the diplomatic channel.

(2) In the event of the conclusion of any general multilateral convention concerning air transport by which both Contracting Parties become bound, the present Agreement shall be amended so as to conform with the provisions of such convention.

*Article 13*

Either Contracting Party may at any time give notice to the other if it desires to terminate the present Agreement. Such notice shall be simultaneously communicated to the International Civil Aviation Organisation. If such notice is given, the present Agreement shall terminate twelve months after the date of receipt of the notice by the other Contracting Party, unless the notice to terminate is withdrawn by agreement before the expiry of this period. In the absence of acknowledgement of receipt by the other Contracting Party, notice shall be deemed to have been received fourteen days after the receipt of the notice by the International Civil Aviation Organisation.

*Article 14*

The present Agreement and any Exchange of Notes in accordance with Article 12 shall be registered with the International Civil Aviation Organisation.

*Article 15*

The present Agreement shall come into force on the date of signature.
