LONG-TERM TRADE AGREEMENT¹ BETWEEN THE
 BENELUX ECONOMIC UNION AND THE PEOPLE'S
 REPUBLIC OF BULGARIA

The Government of the Kingdom of the Netherlands, and

The Government of the Kingdom of Belgium, acting, by virtue of existing agreements, both on its own behalf and on behalf of the Government of the Grand Duchy of Luxembourg,

These Governments acting jointly by virtue of the Treaty instituting the Benelux Economic Union, signed at The Hague, on 3 February 1958², being the Contracting Party of the one part, and

The Government of the People's Republic of Bulgaria, being the Contracting Party of the other part,

Prompted by the desire to promote the further development of their economic and commercial relations on the basis of the principles of equality and mutual advantage,

Have agreed as follows:

Article I

The Contracting Parties shall seek to create, within the limits of their regulations, the most favourable conditions for facilitating the widest possible expansion of economic and commercial relations with a view to ensuring the harmonious development of trade between the two Parties.

¹ Applied provisionally from 1 January 1970, in accordance with the second paragraph of article XV, and definitively on 2 September 1971, the date of the deposit of the last of the instruments of ratification or approval with the Government of Belgium, in accordance with article XV. The instruments were deposited as follows:

<i>State</i>	<i>Date of deposit</i>

² United Nations, *Treaty Series*, vol. 381, p. 165.

Article II

For the purpose of achieving the objectives referred to in article I of this Agreement, the Contracting Parties shall accord to each other, in accordance with their regulations, the most favourable treatment possible in the reciprocal issue of import and export licences for the goods covered by quotas.

For the goods whose quantities or values are to be established annually by the Joint Commission provided for in article XII of this Agreement, the competent authorities of the Contracting Parties shall issue import and export licences at least for the quantities or up to the values established for each of the goods.

Bearing in mind the desire of the Contracting Parties to promote the further development of trade, the competent authorities of the Contracting Parties shall accord sympathetic consideration to requests for the importation of goods for which the quotas stipulated in the annual schedules have been exhausted, as well as other goods not included in the annual schedules annexed to the Protocols.

Article III

The goods to be traded between the territories of the Contracting Parties under this Agreement shall be specified in annual Protocols.

An annual Protocol determining trade for the year 1970 is annexed to this Agreement.

For each following year, the Contracting Parties have agreed that similar action shall be adopted in accordance with article XII, account being taken of the desire of the Contracting Parties to increase the volume of their trade.

Article IV

The competent authorities of each of the Contracting Parties shall take the necessary measures to enable the quotas established in the schedules annexed to the annual Protocols to be used fully, smoothly and without any discrimination.

Article V

The Contracting Parties express their desire to facilitate and foster the development of economic, industrial and technical co-operation between enterprises established in their respective territories.

To that end, the two Parties have agreed to accord each other the treatment that would most favour co-operative activities, on the basis of their respective regulations.

Article VI

The Authorities of the Contracting Parties shall continue to facilitate jobbing operations, as in the past.

In the case of contracts relating to job-work, which shall be authorized by the competent authorities of the Contracting Parties, the Parties shall not impose licence-issuing procedures or customs-clearing formalities less advantageous than those imposed by them on similar transactions with other countries.

Article VII

In order to promote trade between the territories of the Contracting Parties, goods imported for purposes of re-export shall not, in principle, be charged to the quotas, provided that the origin of the goods is not changed.

Domestic regulations in the countries of the Contracting Parties must be complied with.

Article VIII

The Contracting Parties agree to pursue and promote the exchange of traditional services, particularly in the matter of international transport.

Article IX

Trade between the Contracting Parties shall be effected by means of contracts concluded on the Bulgarian side by authorized foreign trade enterprises and organizations which are autonomous and have the status of independent juridical persons.

Article X

For the purposes of this Agreement, Belgian, Luxembourg and Netherlands goods shall be deemed to be those originating in the Benelux Economic Union. Bulgarian goods shall be deemed to be those originating in the People's Republic of Bulgaria.

Article XI

Payments relating to trade between the territories of the Contracting Parties shall be settled in accordance with the provisions of the Payments Agreement in force between the Belgo-Luxembourg Economic Union and the Kingdom of the Netherlands, on the one hand, and the People's Republic of Bulgaria, on the other hand.

Article XII

The Contracting Parties have agreed that a Joint Commission, composed of representatives of their Governments, shall be empowered to review the execution of the Agreement and if necessary to submit to the Contracting Parties any proposals for furthering the development of trade between their territories.

The Joint Commission shall be empowered to submit annual schedules A and B, in accordance with the current regulations of the two Contracting Parties, account being taken of the readiness of the two Parties to increase the volume of their trade.

The Joint Commission shall meet at Brussels and at Sofia alternately, at least once every year. It may also meet whenever either of the Contracting Parties so requests.

Article XIII

In the case of the Kingdom of the Netherlands, this Agreement shall apply to the whole of the Kingdom, unless the Government of the Kingdom of the Netherlands notifies the Government of the People's Republic of Bulgaria to the contrary within three months following the signature of this Agreement.

Article XIV

This Agreement shall be ratified or approved, in accordance with the domestic regulations in force in the respective countries. The instruments of ratification or approval shall be deposited with the Government of the Kingdom of Belgium as soon as possible.

Article XV

This Agreement, which replaces the Trade Agreement signed at Sofia on 25 November 1968, shall be valid for a period of five years and shall enter into force on the date of the deposit of the last instrument of ratification or approval, with retroactive effect from 1 January 1970.

However, in order to avoid any delay in the execution of this Agreement, it has been agreed to give it effect provisionally as from 1 January 1970.

The Contracting Parties reserve the right to undertake consultations in connexion with their international commitments, provided that such consultations shall not jeopardize the basic aims of the Agreement.

IN WITNESS WHEREOF, the undersigned, being duly authorized thereto, have signed this Agreement.
