EXCHANGE OF NOTES CONSTITUTING AN AGREEMENT¹
BETWEEN THE GOVERNMENT OF DENMARK AND
THE GOVERNMENT OF CANADA WITH RESPECT TO
DANISH FISHING PRACTICES OFF THE ATLANTIC
COAST OF CANADA

I

DEPARTMENT OF EXTERNAL AFFAIRS
CANADA

Ottawa, March 27, 1972

No. FLO-281

Excellency,

I have the honour to refer to the discussions which have taken place between representatives of our Governments in Ottawa concerning the amendments of June 26, 1970, to the Territorial Sea and Fishing Zones Act of Canada, and the designation, by Order in Council PC 1971-366 of February 25, 1971, of certain areas of the sea adjacent to the coast of Canada as fishing zones of Canada. In accordance with the understanding reached in these discussions, the Canadian Government proposes the following arrangements with respect to Danish fishing practices off the Atlantic coast of Canada:

1. Faroese fishing vessels may continue to fish for cod by trawl and by longline until January 1, 1972, in that part of the outer nine miles of the territorial sea of Canada where such vessels have fished during the period of five years immediately preceding December 31, 1970. The territorial sea on the Atlantic coast of Canada is measured from baselines as determined by the provisions of Annex A to this Note.

2. Faroese fishing vessels may continue to fish for cod until January 1, 1975, as follows:

(A) (i) by trawl, east of the meridian of longitude 61° 30' West, and

(ii) by longline, east of the meridian of longitude 61° 30' West to the south of Anticosti Island, and north of Anticosti Island, east of the meridian of longitude 63° 30' West, in Zone 1 (Gulf of St. Lawrence) of the fishing zones of Canada, as described in the schedule to Order in Council PC 1971-366 of February 25 (a copy

of which is annexed hereto as Annex B), outside a distance of 12 miles from the low water line of the coast and 12 miles from a line joining Cape St. George with Cape Anguille;

(B) by trawl, up to a distance of three miles from the low water line of the coast of St. Paul Island northeastward of a line passing through the lighthouse situated on St. Paul Island in a $315^{\circ}/135^{\circ}$ (true compass) direction.

3. Faroese fishing vessels may further continue to fish for cod by trawl until May 15, 1976, and by longline until December 31, 1976, in the areas described in subparagraph 2, on the same conditions as before January 1, 1975, save only that such continued fishing thereafter shall be on the basis of a licence or licences to be issued by the Canadian authorities.

4. Faroese fishing vessels may continue to fish for porbeagle shark by longline until January 1, 1975, in that part of Zone 1 (Gulf of St. Lawrence) of the fishing zones of Canada defined in the chart annexed hereto as Annex C,¹ and thereafter for successive periods of two years, on the same conditions as before January 1, 1975, save only that such continued fishing shall be on the basis of a licence or licences to be issued by the Canadian authorities and may be terminated by the Canadian authorities upon not less than one year's notice in writing prior to the conclusion of any two-year period.

5. Faroese fishing vessels may retain other species caught incidentally while fishing for cod in accordance with the foregoing provisions of this Note.

6. Faroese fishing vessels shall be subject, without discrimination, to the same laws and regulations as Canadian fishing vessels while operating within the areas in which they may continue to fish pursuant to this Note. The Canadian authorities shall inform the Danish authorities of the fisheries regulations applicable to such areas. On transmission from the Canadian authorities, the Danish Government shall make known to the Faroese authorities these laws and regulations with a view to ensuring their strict observance. The Canadian Government shall not, without the agreement of the Danish Government, change the existing fishing laws and regulations previously made known to the Danish Government in a manner which would have the effect of curtailing the areas in which Faroese fishing vessels could, in practice, fish pursuant to this agreement.

7. If at any time before December 31, 1976, the Canadian Government considers that there has been a fundamental change in the intensity, character and pattern of the fishing carried on by Faroese fishing vessels in any of the areas referred to herein, the Canadian Government may raise the matter with the Danish Government and the two Governments shall review the situation.

If the foregoing proposals are acceptable to your Government, I have the honour to propose that this Note and these Annexes, the English and French versions of which are equally authentic, and Your Excellency's

reply, shall constitute an agreement between the Government of Canada and the Government of Denmark which shall enter into force on the date of your reply

Accept, Excellency, the renewed assurances of my highest consideration.

ANNEX RESPECTING GEOGRAPHICAL CO-ORDINATES OF POINTS FROM WHICH BASELINES MAY BE DETERMINED

INTERPRETATION

In this Annex:

“Act” means the Territorial Sea and Fishing Zones Act;

“Area”, followed by a number, includes all islands and low-tide elevations adjacent to the Area followed by that number;

“C.H.S. Chart” means Canadian Hydrographic Service Chart; and

“Geographical co-ordinates of points” means the latitude and longitude of points determined by reference to Columns II and III of the Schedules.

GENERAL

The lists of geographical co-ordinates of points set out in the Schedules are those from which baselines may be determined pursuant to the Act in respect of the Areas to which the Schedules relate.

In respect of the portions of Areas 1, 2, 3 and 4 for which the geographical co-ordinates of points are set out in Schedule A, the baselines are straight lines joining the points so set out.

In respect of the portion of Area 2 for which the geographical co-ordinates of points are set out in Schedule B, the baseline is the low-water line along the coast joining the points so set out.

In respect of the portions of Areas 1, 2, 3 and 4 consisting of the islands named and the low-tide elevations described in Schedule C, the baselines are the low-water lines of the islands and of the low-tide elevations.
