Ref. 104. Ken. 4/3

Sir,

I have the honour to refer to previous correspondence resting with the Embassy's letter of 11th April 1969, regarding the Pilot Project concerning construction of self-help cattle dips in selected areas of Kenya.

The Government of Denmark agrees that the Danish grant of K£ 90,650 covering a period of two and a half years be used in accordance with the proposal of the Ministry of Agriculture as set out in the Treasury's letter of January 25th 1969, Ref. No. DV 88/78/01, on the understanding that:

The responsibility for the implementation of the Pilot Project shall rest with the Veterinary Department of the Ministry of Agriculture for the duration of the project period. The Veterinary Department shall further assume responsibility for the efficient running and maintenance of all dips upon their completion.

The Danish veterinarian to be in charge of the Project and the two Danish foremen shall be recruited by the Government of Denmark, which will pay their salaries, insurances and travel costs to and from Kenya. The veterinarian and the foremen will join the Project under the general terms of expatriate advisers.

Any supplies, materials or equipment, including motor vehicles, imported into Kenya for the purpose of implementing the Project shall be exempted from import restrictions, customs duties and other fiscal charges.

The Project Leader shall report monthly in English to the respective Danish and Kenyan authorities on progress.

Before Danish funds for the construction of one or more dips in a certain area are transferred to the Department through the Ministry of Agriculture the Veterinary Department shall guarantee that

- (a) The boundaries of the area shall have been clearly defined and that the movement of cattle into and out of the area is completely controlled.
- (b) Sufficient viable self-help groups are available in the area to provide at least half the total number of dips needed to cover the entire area.

¹ Came into force on 1 August 1969, in accordance with the provisions of the said notes.

- (c) There is reason to expect that sufficient groups to cover the entire area will be formed within the period of the Project.
- (d) The popular demand for regular dipping is adequate to support enforcement of dipping on those who are not prepared to voluntarily dip their cattle.
- (e) The counterpart contribution in cash and materials of not less than the equivalent of K£ 500 per dip will be made available in advance.

Having been assured of the fulfilment of the aforementioned criteria, the Project Leader shall immediately initiate the transfer to the Kenya Treasury of Danish funds corresponding to the number of dips to be constructed.

On the expiry of this Agreement the Veterinary Department shall

- (a) Be responsible for the continuation of the Project as well as for supervision of the dips, and
- (b) Provide suitable counterparts for the three Danish experts. These counterparts shall join the Project not later than six months prior to the expiry of this Agreement.

Amendments or alterations to this Exchange of Notes may be made by mutual agreement between the Government of Denmark and the Government of Kenya and shall be confirmed by an Exchange of Letters.

If the foregoing is acceptable to the Government of Kenya, I have the honour to suggest that this note and your reply to that effect be regarded as constituting an agreement between the Government of Denmark and the Government of Kenya in this matter which shall enter into force on the 1st August 1969, and remain in force for two years and six months from that date.

Please accept, Sir, the assurance of my highest consideration.
