2.2. The Government shall establish appropriate programmes for maintenance and repair of all equipment supplied by UNFPA.

2.3. The Government will permit an external review to be made of any of the projects funded by UNFPA under the terms of this Agreement and to assess the progress in implementation of projects.

III. ORGANIZATION OF THE PROGRAMME

A. General Responsibilities

3.1. The project documents referred to in 1.4. together with any modifications thereof set forth the responsibilities of the parties concerned with the implementation of project activities within the framework of this Agreement.

3.2. Each Project Document outlines the financial obligations of the parties concerned, specifies the Government counterpart contribution and sets forth the work plan of the project. Project Documents with any modifications thereof form part of this Agreement when approved by the Government and UNFPA and any Participating Organization concerned.

B. Participation of the Government

3.3. The Government designates as counterpart agency, the National Planning Council, hereinafter referred to as the "Coordinating Agency" for all components of this programme.

3.4. The Coordinating Agency shall appoint a Programme Coordinator who will be the principal point of contact between the Government and the Resident Representative of UNDP in all matters relating to this programme.

3.5. The Government agrees to make available at the time and in the manner specified in each Project Agreement, the Government's counterpart contribution to ensure timely implementation of the different project activities.

3.6. The Government's financial obligations described in Project Agreements shall be provided for in the Government's budget for each financial year in which project activities are planned to take place.

3.7. Failure by the Government to meet its obligations in regard to any specific project may cause UNFPA's assistance under this Agreement for that project to be suspended or cancelled.

3.8. The Government shall make available to UNFPA and the Participating Organizations any published or unpublished reports, records, studies, maps and other data which may be considered necessary for the implementation and evaluation of the project subject to any Government security requirements.

3.9. The Government shall exempt all imported equipment provided by UNFPA from any custom duties and shall bear the cost of other charges related to its customs clearance, in-country transportation, storage and related expenses for installation, maintenance, insurance, operation and repairs, as necessary, after delivery to the project.

3.10. The Government shall provide consultants and advisers related to projects financed by UNFPA with adequate office space and other facilities.

C. Participation of UNFPA and Participating Organizations

3.11. The Resident Representative of UNDP in Jordan, or his designate, shall represent UNFPA in all contacts with the Government, and shall be responsible for the coordination of the projects by Participating Organizations. UNFPA may appoint a Coordinator in the region to assist the Resident Representative in undertaking these functions.

3.12. All non-expendable materials, equipment and supplies financed by UNFPA shall be used exclusively for the execution of the project for which they are furnished and shall remain the property of UNFPA until disposal or as hereinafter provided. Inventories of project equipment purchased with UNFPA funds shall be maintained according to UNFPA Financial Rules and Regulations. Prior to completion of a project, the Government, UNFPA and the Participating Organizations, if any, shall consult as to the disposal of non-expendable project equipment provided by UNFPA. Such equipment may be transferred to the Government, or an entity nominated by the Government, for the continued operation of the project or for activities following directly therefrom.

3.13. A Projects Implementation Committee under the Chairmanship of a representative designated by the Government shall be formed and shall meet periodically to review the progress of the projects which form part of this Agreement and related matters. The members of this Committee shall be the Resident Representative of UNDP, the UNFPA Coordinator, if and when appointed, and representatives of other governmental bodies and Participating Organizations concerned.

IV. REPORTING

4.1. In Project Agreements for each project financed hereunder, UNFPA will require Participating Organizations concerned with the project to submit progress reports to UNFPA through the Resident Representative in accordance with UNFPA monitoring and reporting procedures. When, in UNFPA's opinion,

circumstances warrant it, the Projects Implementation Committee or specific agencies represented upon it shall, at UNFPA's request, submit an additional report.

4.2. Participating Organizations will be required to submit financial reports to UNFPA on those components of projects for which they are responsible. If any UNFPA funds are provided by UNFPA directly to the Government for its expenditure on a project, the Government will receive and account for such funds according to UNFPA's financial rules and procedures. The Government will permit audit of the accounts for all UNFPA funded projects by the United Nations Board of Auditors and/or the Internal Audit Services of the United Nations or their agents.

4.3. The Government will cooperate with the Resident Representative in assisting him to fulfill the reporting requirements of UNFPA.

4.4. On completion of its portion of the project activities, each Participating Organization, if any, should submit a final report to the Projects Implementation Committee and UNFPA (through the Resident Representative).
