## ANNEX A

### I. PURPOSE

The purpose of this Project Agreement is to provide continued support to the Government of Indonesia's (GOI) National Family Planning Program by providing assistance to the National Family Planning Coordinating Board (BKKBN). This assistance is in the following areas:

A. *Personnel.* \$13,000 are provided to complete the FY 1977 funding of Dr. Jay Parsons for 12 months from August 1977 to August 1978 to allow Dr. Parsons to assist the BKKBN with program development, research and evaluation.

B. *Training.* \$250,000 are provided for population training. Funds are obligated for the continuation of approximately 9 participants currently studying population related subjects in the United States and 3rd countries. Funds are provided for approximately 10 new participants to begin long-term training in population related subjects in the United States and 3rd countries. Funds are also provided for new participants for up to one semester of full-time intensive English training if required. USAID understands that the BKKBN will seek roundtrip travel funds for the new participants from the GOI or other sources.

C. *Commodities.* \$500,000 are provided for commodities, which will consist of vehicles and medical kits for the National Family Planning Program. The use of and area assignment of the vehicles will be detailed in the sub-obligating documents to be jointly agreed to and signed by USAID and the BKKBN.

D. *Local Costs.* \$1,237,000 are provided to support population development and evaluation activities, population policy studies and the village family planning (VFP) program. Examples of these types of activities are:

1. *Development and Evaluation.* USAID and the BKKBN expect to provide support for an increase in the coordination of and the amount of fertility research underway in Indonesia.

Emphasis will be on contraceptives such as the oral contraceptive, IUD and contraceptive injection and their side effects and efficacy in preventing conception. USAID and the BKKBN will also provide support for innovative approaches for increasing the availability of contraceptives services. Funds are also provided for workshops at the local level to upgrade population management and administrative skills.

2. *Population Policy.* USAID and the BKKBN expect that the BKKBN will increase its role in the development of a more comprehensive population policy for the Government of Indonesia. Funds are provided in this Project Agreement for population policy studies such as the Population Dynamics Project currently being developed by the Central Bureau of Statistics.
3. *Village Family Planning.* USAID and the BKKBN will sub-obligate the majority of the local costs support for VFP. The BKKBN has proposals from East Java and West Java and will request USAID support for these VFP programs. In addition, the VFP programs in the Outer Islands in provinces such as West Sumatra, Lampung and North Sulawesi may be accelerated and expanded.

## II. COURSE OF ACTION

USAID and the BKKBN will take the following actions to implement this assistance agreement:

A. *Personnel.* USAID will prepare a supplementary sub-obligating document (PIO/T) to provide the additional funding required for Dr. Parson's 12-month contract.

B. *Training.* USAID will prepare sub-obligating documents (PIO/Ps) for new participants with a USAID determination as to whether or not these participants require intensive English training in the United States or a 3rd country. USAID will also prepare PIO/Ps for those participants continuing their studies in the United States or 3rd countries.

C. *Commodities.* USAID and the BKKBN will review the distribution and use plan for the vehicles provided under this agreement for the family planning program. Upon joint-agreement to the vehicle plan, USAID will prepare sub-obligating documents (PIO/Cs) for the vehicles and other miscellaneous equipment such as medical kits.

D. *Local Costs.* USAID and the BKKBN will conduct on-site field reviews of the Village Family Planning Program to consider continued funding of these programs. USAID and the BKKBN will jointly agree to continued funding of a VFP program in a detailed Sub-Grant Agreement (SGA) that describes the VFP program and contains a budget and implementation plan. Development and Evaluation and Population Policy Studies will also be agreed to in SGAs complete with budget and implementation plans.

## III. GOI CONTRIBUTION

The BKKBN will continue to utilize its budget to support the national family planning program. The BKKBN will work with USAID in identifying training candidates and seek travel funds for participants that are mutually agreed to by BKKBN and USAID. The BKKBN will seek maintenance support for the vehicles described in Part I, Section C, of this Project Agreement either through the BKKBN budget or other sources such as government agencies or private agencies. The BKKBN will cooperate with USAID in developing and reviewing local costs support for development and evaluation, population policy and village family planning activities.

*Special Provision:* The Co-operating Government Agency agrees to execute an assignment to A.I.D. upon request, of any cause of action which may accrue to the Co-operating Government Agency in connection with or arising out of the contractual performance or breach of performance by a party to a direct contract with A.I.D. financed in whole or in part out of funds provided by the United States Government under this Agreement.
