AGREEMENT¹ BETWEEN THE GOVERNMENT OF THE REPUBLIC OF INDONESIA AND THE GOVERNMENT OF THE UNITED STATES OF AMERICA FOR SALES OF AGRICULTURAL COMMODITIES

The Government of the United States of America and the Government of the Republic of Indonesia,

Recognizing the desirability of expanding trade in agricultural commodities between the United States of America (hereinafter referred to as the exporting country) and the Republic of Indonesia (hereinafter referred to as the importing country) and with other friendly countries in a manner that will not displace usual marketings of the exporting country in these commodities or unduly disrupt world prices of agricultural commodities or normal patterns of commercial trade with friendly countries;

Taking into account the importance to developing countries of their efforts to help themselves toward a greater degree of self-reliance, including efforts to meet their problems of food production and population growth;

Recognizing the policy of the exporting country to use its agricultural productivity to combat hunger and malnutrition in the developing countries, to encourage these countries to improve their own agricultural production, and to assist them in their economic development;

Recognizing the determination of the importing country to improve its own production, storage, and distribution of agricultural food products, including the reduction of waste in all stages of food handling;

Desiring to set forth the understandings that will govern the sales of agricultural commodities to the importing country pursuant to Title I of the Agricultural Trade Development and Assistance Act, as amended (hereinafter referred to as the Act), and the measures that the two Governments will take individually and collectively in furthering the above-mentioned policies,

Have agreed as follows:

PART I. GENERAL PROVISIONS

Article I

A. The Government of the exporting country undertakes to finance the sale of agricultural commodities to purchasers authorized by the Government of the importing country in accordance with the terms and conditions set forth in this Agreement.

B. The financing of the agricultural commodities listed in part II of this Agreement will be subject to:

1. The issuance by the Government of the exporting country of purchase authorizations and their acceptance by the Government of the importing country; and
2. The availability of the specified commodities at the time of exportation.

C. Application for purchase authorizations will be made within 90 days after the effective date of this agreement, and, with respect to any additional commodities or amounts of commodities provided for in any supplementary agreement, within 90 days

¹ Came into force on 2 December 1980 by signature, in accordance with part III, section A.

after the effective date of such supplementary agreement. Purchase authorizations shall include provisions relating to the sale and delivery of such commodities, and other relevant matters.

D. Except as may be authorized by the Government of the exporting country, all deliveries of commodities sold under this agreement shall be made within the supply periods specified in the commodity table in part II.

E. The value of the total quantity of each commodity covered by the purchase authorizations for a specified type of financing authorized under this agreement shall not exceed the maximum export market value specified for that commodity and type of financing in part II. The Government of the exporting country may limit the total value of each commodity to be covered by purchase authorizations for a specified type of financing as price declines or other marketing factors may require, so that the quantities of such commodity sold under a specified type of financing will not substantially exceed the applicable approximate maximum quantity specified in part II.

F. The Government of the exporting country shall bear the ocean freight differential for commodities the Government of the exporting country requires to be transported in United States flag vessels (approximately 50 percent by weight of the commodities sold under the Agreement). The ocean freight differential is deemed to be the amount, as determined by the Government of the exporting country, by which the cost of ocean transportation is higher (than would otherwise be the case) by reason of the requirement that the commodities be transported in United States flag vessels. The Government of the importing country shall have no obligation to reimburse the Government of the exporting country for the ocean freight differential borne by the Government of the exporting country.

G. Promptly after contracting for United States flag shipping space to be used for commodities required to be transported in United States flag vessels, and in any event not later than presentation of vessel for loading, the Government of the importing country or the purchasers authorized by it shall open a letter of credit, in United States dollars, for the estimated cost of ocean transportation for such commodities.

H. The financing, sale, and delivery of commodities under this agreement may be terminated by either Government if that Government determines that because of changed conditions the continuation of such financing, sale, or delivery is unnecessary or undesirable.

Article II

A. *Initial payment.* The Government of the importing country shall pay, or cause to be paid, such initial payment as may be specified in part II of this Agreement. The amount of this payment shall be that portion of the purchase price (excluding any ocean transportation costs that may be included therein) equal to the percentage specified for initial payment in part II and payment shall be made in United States dollars in accordance with the applicable purchase authorization.

B. *Currency use payment.* The Government of the importing country shall pay, or cause to be paid, upon demand by the Government of the exporting country in amounts as it may determine, but in any event no later than one year after the final disbursement by the Commodity Credit Corporation under this Agreement, or the end of the supply period, whichever is later, such payment as may be specified in part II of this Agreement pursuant to section 103(b) of the Act (hereinafter referred to as the currency use payment). The currency use payment shall be that portion of the amount financed by the exporting country equal to the percentage specified for currency use payment in part II. Payment shall be made in accordance with paragraph H and for purposes specified in subsections 104(a), (b), (e) and (h) of the Act, as set forth in part II of this Agreement. Such payment

shall be credited against (a) the amount of each year's interest payment due during the period prior to the due date of the first installment payment, starting with the first year, plus (b) the combined payments of principal and interest starting with the first installment payment, until the value of the currency use payment has been offset. Unless otherwise specified in part II, no request for payment will be made by the Government of the exporting country prior to the first disbursement by the Commodity Credit Corporation of the exporting country under this Agreement.

C. *Type of financing.* Sales of the commodities specified in part II shall be financed in accordance with the type of financing indicated therein. Special provisions relating to the sale are also set forth in part II.

D. *Credit provisions.* 1. With respect to commodities delivered in each calendar year under this Agreement, the principal of the credit (hereinafter referred to as principal) will consist of the dollar amount disbursed by the Government of the exporting country for commodities (not including any ocean transportation costs) less any portion of the initial payment payable to the Government of the exporting country.

The principal shall be paid in accordance with the payment schedule in part II of this Agreement. The first installment payment shall be due and payable on the date specified in part II of this Agreement. Subsequent installment payments shall be due and payable at intervals of one year thereafter. Any payment of principal may be made prior to its due date.

2. Interest on the unpaid balance of the principal due the Government of the exporting country for the commodities delivered in each calendar year shall be paid as follows:

- a. In the case of dollar credit, interest shall begin to accrue on the date of last delivery of these commodities in each calendar year. Interest shall be paid not later than the due date of each installment payment of principal, except that if the date of the first installment is more than a year after such date of last delivery, the first payment of interest shall be made not later than the anniversary date of such date of last delivery and thereafter payment of interest shall be made annually and not later than the due date of each installment payment of principal.
- b. In the case of convertible local currency credit, interest shall begin to accrue on the date of dollar disbursement by the Government of the exporting country. Such interest shall be paid annually beginning one year after the date of last delivery of commodities in each calendar year, except that if the installment payments for these commodities are not due on same anniversary of such date of last delivery, any such interest accrued on the due date of the first installment payment shall be due on the same date as the first installment and thereafter such interest shall be paid on the dates of the subsequent installment payments.

3. For the period of time from the date the interest begins to the due date for the first installment payment, the interest shall be computed at the initial interest rate specified in part II of this Agreement. Thereafter, the interest shall be computed at the continuing interest rate specified in part II of this Agreement.

E. *Deposit of payments.* The Government of the importing country shall make, or cause to be made, payments to the Government of the exporting country in the currencies, amounts, and at the exchange rates provided for in this Agreement as follows:

1. Dollar payments shall be remitted to the Treasurer, Commodity Credit Corporation, United States Department of Agriculture, Washington, D.C. 20250, unless another method of payment is agreed upon by the two Governments.
2. Payments in the local currency of the importing country (hereinafter referred to as local currency) shall be deposited to the account of the Government of the United

States of America in interest bearing accounts in banks selected by the Government of the United States of America in the importing country.

F. *Sales proceeds.* The total amount of the proceeds accruing to the importing country from the sale of commodities financed under this Agreement, to be applied to the economic development purposes set forth in part II of the Agreement, shall be not less than the local currency equivalent of the dollar disbursement of the Government of the exporting country in connection with financing of the commodities (other than the ocean freight differential), provided, however, that the sales proceeds to be so applied shall be reduced by the currency use payment, if any, made by the Government of the importing country. The exchange rate to be used in calculating this local currency equivalent shall be the rate at which the central monetary authority of the importing country, or its authorized agent, sells foreign exchange for local currency in connection with the commercial import of the same commodities. Any such accrued proceeds that are loaned by the Government of the importing country to private or non-governmental organizations shall be loaned at rates of interest approximately equivalent to those charged for comparable loans in the importing country. The Government of the importing country shall furnish in accordance with its fiscal year budget reporting procedure, at such times as may be requested by the Government of the exporting country but not less often than annually, a report of the receipt and expenditure of the proceeds, certified by the appropriate audit authority of the Government of the importing country, and in case of expenditures the budget sector in which they were used.

G. *Computations.* The computation of the initial payment, currency use payment and all payments of principal and interest under this Agreement shall be made in United States dollars.

H. *Payments.* All payments shall be in United States dollars or, if the Government of the exporting country so elects,

1. The payments shall be made in readily convertible currencies of third countries at a mutually agreed rate of exchange and shall be used by the Government of the exporting country for payment of its obligations or, in the case of currency use payments, used for the purposes set forth in part II of this Agreement; or
2. The payments shall be made in local currency at the applicable exchange rate specified in part I, article III, G of this Agreement in effect on the date of payment and shall, at the option of the Government of the exporting country, be converted to United States dollars at the same rate, or used by the Government of the exporting country for payment of its obligations or, in the case of currency use payments, used for the purposes set forth in part II of this Agreement in the importing country.

Article III

A. *World trade.* The two Governments shall take maximum precautions to assure that sales of agricultural commodities pursuant to this Agreement will not displace usual marketings of the exporting country in these commodities or unduly disrupt world prices of agricultural commodities or normal patterns of commercial trade with countries the Government of the exporting country considers to be friendly to it (referred to in the Agreement as friendly countries). In implementing this provision the Government of the importing country shall:

1. Insure that total imports from the exporting country and other friendly countries into the importing country paid for with the resources of the importing country will equal at least the quantities of agricultural commodities as may be specified in the usual marketing table set forth in part II during each import period specified in the table and during each subsequent comparable period in which commodities financed under

this Agreement are being delivered. The imports of commodities to satisfy these usual marketing requirements for each import period shall be in addition to purchases financed under this Agreement.

2. Take steps to assure that the exporting country obtains a fair share of any increase in commercial purchases of agricultural commodities by the importing country.
3. Take all possible measures to prevent the resale, diversion in transit, or transshipment to other countries or the use for other than domestic purposes of the agricultural commodities purchased pursuant to this Agreement (except where such resale, diversion in transit, transshipment of use is specifically approved by the Government of the United States of America).
4. Take all possible measures to prevent the export of any commodity of either domestic or foreign origin, which is defined in part II of this Agreement, during the export limitation period specified in the export limitation table in part II (except as may be specified in part II or where such export is otherwise specifically approved by the Government of the United States of America).

B. *Private trade.* In carrying out the provisions of this Agreement, the two Governments shall seek to assure conditions of commerce permitting private traders to function effectively.

C. *Self-help.* Part II describes the program the Government of the importing country is undertaking to improve its production, storage, and distribution of agricultural commodities. The Government of the importing country shall furnish in such form and at such time as may be requested by the Government of the exporting country a statement of the progress the Government of the importing country is making in carrying out such self-help measures.

D. *Reporting.* In addition to any other reports agreed upon by the two Governments, the Government of the importing country shall furnish at least quarterly for the supply period specified in part II, item I of this Agreement and any subsequent comparable period during which commodities purchased under this Agreement are being imported or utilized:

1. The following information in connection with each shipment of commodities under the Agreement: the name of each vessel; the date of arrival; the port of arrival; the commodity and quantity received; and the condition in which received;
2. A statement by it showing the progress made toward fulfilling the usual marketing requirements;
3. A statement of the measures it has taken to implement the provisions of sections A 2 and 3 of this article; and
4. Statistical data on imports by country of origin and exports by country of destination, of commodities which are the same or like those imported under the Agreement.

E. *Procedures for reconciliation and adjustment of accounts.* The two Governments shall each establish appropriate procedures to facilitate the reconciliation of their respective records on the amounts financed with respect to the commodities delivered during each calendar year. The Commodity Credit Corporation of the exporting country and the Government of the importing country may make such adjustments in the credit accounts as they mutually decide are appropriate.

F. *Definitions.* For the purposes of this Agreement:

1. Delivery shall be deemed to have occurred as of the on-board date shown in the ocean bill of lading which has been signed or initialed on behalf of the carrier;
2. Import shall be deemed to have occurred when the commodity has entered the country, and passed through customs, if any, of the importing country; and

3. Utilization shall be deemed to have occurred when the commodity is sold to the trade within the importing country without restriction on its use within the country or otherwise distributed to the consumer within the country.

G. *Applicable exchange rate.* For the purposes of this Agreement, the applicable exchange rate for determining the amount of any local currency to be paid to the Government of the exporting country shall be a rate in effect on the date of payment by the importing country which is not less favorable to the Government of the exporting country than the highest exchange rate legally obtainable in the importing country and which is not less favorable to the Government of the exporting country than the highest exchange rate obtainable by any other nation. With respect to local currency:

1. As long as a unitary exchange rate system is maintained by the Government of the importing country, the applicable exchange rate will be the rate at which the central monetary authority of the importing country, or its authorized agents, sells foreign exchange for local currency.
2. If a unitary rate system is not maintained, the applicable rate will be the rate (as mutually agreed by the two Governments) that fulfills the requirement of the first sentence of this section G.

H. *Consultation.* The two Governments shall, upon request of either of them, consult regarding any matter arising under this Agreement, including the operation of arrangements carried out pursuant to this Agreement.

I. *Identification and publicity.* The Government of the importing country shall undertake such measures as may be mutually agreed prior to delivery for the identification of food commodities at points of distribution in the importing country, and for publicity in the same manner as provided for in subsection 103(1) of the Act.

AGREED MINUTES¹ RELATING TO THE AGREEMENT OF 2 DECEMBER 1980 BETWEEN THE GOVERNMENT OF THE REPUBLIC OF INDONESIA AND THE GOVERNMENT OF THE UNITED STATES OF AMERICA FOR SALES OF AGRICULTURAL COMMODITIES²

The following minutes of negotiations of the FY 1980/81 PL-480, Title I Agreement of December 2, 1980 are agreed upon by the representatives of the signatory Governments:

1. The representatives of the Government of Indonesia understand that the preamble and parts I and III are standard and applicable to all Title I PL-480 Agreements.

2. The attention of the representatives of the Government of Indonesia has been called to the provisions of part II, specifically to the time period restrictions and quantities of rice and wheat required to be purchased commercially against the Usual Marketing Requirement (UMR) with its own resources.

3. In addition to the delivery limitations and UMR purchases noted in the preceding minutes, the representatives of the Government of Indonesia understand that:

- a. Shipments of commodities from the U.S. must be completed by September 30, 1981, since the financing for the Agreement will come from the United States FY 1981 budget. It is understood that commodity suppliers and vessel owners may not release commodities or allow loading of vessels until correct letters of credit are opened and that late or improperly opened letters of credit can seriously delay export of commodities. It is understood further that delayed opening of letters of credit could result in commodity suppliers canceling sales and ocean transportation suppliers canceling space;
- b. All tendering for rice and wheat under the Agreement must be done by invitations for competitive bids conducted in the United States with public opening of bids and that awards shall be made on the basis of the lowest FAS vessel or FOB vessel bid price for the commodity responsive to tender terms. It is understood further that freight tenders must also be conducted in the U.S. with public opening of bids; however, charterer retains right to negotiate;
- c. Purchase authorization issued under the Agreement will contain requirements that invitations for bids for both commodity and freight must be submitted to the Office of General Sales Manager, U.S. Department of Agriculture, Washington, D.C., for review and approval prior to their release to prospective bidders.
- d. Imports from USSR, People's Republic of China, Eastern Europe (except Poland and Yugoslavia), Cuba, Socialist Republic of Vietnam and North Korea, commodities imported under PL-480, or grants received from the United States or other sources cannot be counted toward the UMR.

4. The representatives of the Government of Indonesia understand that in case the unit prices become higher than those projected in valuing the Agreement, purchases will be limited to the dollar value specified in the Agreement. This is in accordance with article I E, part I of the Agreement.

5. The representatives of the Government of Indonesia understand that additional purchases of these and other U.S. commodities may be available to Indonesian buyers

¹ Came into force on 3 December 1980 by signature, with retroactive effect from 2 December 1980.

² See p. 4 of this volume.

through the CCC All Risk Assurance Program, GSM-102 under which the U.S. Government assures certain sales of U.S. agricultural commodities against all risks. This source of financing may be used to satisfy the UMR. It is understood further that other eligible commodities not included under the Agreement may be requested also for such U.S. Government financing assurance.

6. The Government of Indonesia will take effective steps to reduce losses connected with the handling and storage of PL-480 commodities; will enforce strict accountability for the commodities until they are in the hands of the private trade; and, in case of damage or loss attributable to the ocean carrier, will make and vigorously follow up claims for reimbursement for such damage or loss.

7. The Government of Indonesia understands that if it engages the services of a U.S. person or firm as its agent to handle the procurement of a commodity and/or ocean transportation, such agent must be approved by the United States Department of Agriculture. A copy of the written agreement between the Government of Indonesia and the U.S. agent must be submitted to the United States Department of Agriculture for prior approval to the issuance of the applicable purchase authorization.

8. The representatives of the Government of Indonesia have been informed that legislation affecting section 106 (B) and 109 (A) of PL-480 requires: (1) specific emphasis on implementation of self-help measures so as to contribute directly to development progress in poor rural areas and to enable the poor to participate actively in increasing agricultural production through small farm agriculture and (2) use of proceeds for purposes which directly improve the lives of the poorest of the recipient country's people and their capacity to participate in the development of their country. These requirements are specifically noted in items V and VI, B, part II of the Agreement.

9. The representatives of the Government of Indonesia understand that certain reports are required in connection with the Agreement, on the arrival and disposition of the commodities, permissible exports, the use of sales proceeds, progress in agricultural self-help and the allocation of rupiahs generated by the Agreement. The representatives of the Government of Indonesia will make appropriate arrangements to:

- a. Furnish the Embassy of the United States of America a report by the fifteenth of January, April, July and October under provisions contained in article III, D, part I, of the Agreement.
- b. Return completed "shipping and arrival information" (ADP Sheets) with appropriate notations certifying receipt of all commodities as soon as possible, but not later than 30 days from the date of unloading or 30 days from the receipt of the ADP Sheets, whichever is later.
- c. Furnish the Embassy of the United States of America a report of the receipt and expenditures of the proceeds accruing from the sale of commodities financed under the Agreement. This is in accordance with article II, F, part I of the Agreement.
- d. Submit an annual report on progress of agricultural self-help by November 15, containing the best possible description, both quantitative and qualitative, of current and previous GOI fiscal year self-help activities. It was also agreed that this report should cover future self-help plans and funding directly or by cross reference to other planning documents. The representatives of the Government of Indonesia agree further to hold periodic self-help meetings with appropriate representatives of the United States Government in an effort to increase the impact of the self-help measures on agricultural production and maintain the quality and responsiveness of self-help reporting.

10. In compliance with the provisions of article III, part I of the Agreement, the Government of Indonesia agrees to give publicity to the provisions of the Agreement by issuing suitable press releases at the time of signing and at the time of issuance of each purchase authorization applied for under the Agreement.

11. Other Agreement provisions discussed by representatives of the two Governments in some detail included commodity deliveries, payment terms and issuance of purchase authorization by U.S. Department of Agriculture. It was agreed that Government of Indonesia representatives will furnish the necessary operational reporting information incident to issuance of purchase authorization as promptly as possible after Agreement is reached between the two countries to the quantities and values involved in any Agreement or Amendment.
