AGREEMENT¹ BETWEEN THE GOVERNMENT OF THE REPUBLIC OF FINLAND AND THE GOVERNMENT OF THE GERMAN DEMOCRATIC REPUBLIC ON THE RECIPROCAL REMOVAL OF OBSTACLES TO TRADE

The Government of the Republic of Finland and the Government of the German Democratic Republic, taking into account the efforts of the two countries to foster, on a world-wide basis, the gradual removal of obstacles to international trade, to seek means for developing trade and to establish closer economic co-operation between countries with different economic and social systems,

Desiring to eliminate customs tariffs and other restrictive trade regulations in respect of virtually all their trade in a manner simulating a free-trade zone,

Considering that nothing in this Agreement may be interpreted as exempting the Contracting Parties from the rights and duties arising from other international agreements.

Have agreed as follows:

Article 1. The purpose of this Agreement is:

- (a) To create more favourable conditions than heretofore in the markets of the Contracting Parties in order to ensure the development of their reciprocal trade in a satisfactorily balanced manner;
- (b) To foster, through the expansion of their reciprocal trade, the harmonious development of economic relations between the Contracting Parties and to create for enterprises and other economic organizations of the Contracting Parties the most favourable conditions possible for promoting economic and technical co-operation between them, to the mutual benefit of their national economies.
- Article 2. The Agreement shall apply to goods listed in chapters 25 to 99 of the nomenclature used in this Agreement which originate in the Republic of Finland or in the German Democratic Republic.

Agricultural products falling within chapters 1 to 24 of the aforementioned nomenclature shall be treated in accordance with the provisions of Protocol No. 1.

- Article 3. 1. No new import duties shall be introduced in respect of trade between the Contracting Parties.
- 2. Finland shall gradually eliminate the import duties still in force in accordance with the following timetable:
- (a) All customs duties shall be reduced to 40 per cent of the basic customs duty on 1 July 1975;

¹ Came into force on 1 July 1975, i.e., the first day of the second month following the exchange of the instruments of ratification, which took place at Helsinki on 30 May 1975, in accordance with article 19.

- (b) Further reductions of 20 per cent each shall become effective on 1 January 1976 and 1 July 1977.
- 3. The customs treatment to be accorded to certain goods is specified in Protocol No. 2.
- 4. Customs duties reduced in accordance with this Agreement shall be rounded off to the first decimal place.
- Article 4. The basic customs duty to which the successive reductions provided for in article 3 and in Protocol No. 2 are to be applied shall, in respect of each good, be the customs duty actually applied in trade between the Contracting Parties on 1 January 1974.
- Article 5. 1. No new charges having the same effect as import duties shall be introduced in respect of trade between the Contracting Parties.
- 2. Charges having the same effect as import duties shall be eliminated upon the entry into force of this Agreement.
- Article 6. 1. The Contracting Parties shall not, either directly or indirectly, apply to goods imported from the territory of the other Contracting Party any fiscal charges greater than those which, either directly or indirectly, are applied to corresponding domestic goods or goods imported from other countries.
- 2. The term "fiscal charges" includes financial charges, excise duties and other domestic charges on goods.
 - Article 7. Regulations relating to origin are set out in Protocol No. 3.
- Article 8. 1. No new quantitative import restrictions or measures having the same effect shall be introduced in respect of trade between the Contracting Parties.
- 2. The Contracting Parties shall eliminate such restrictions upon the entry into force of this Agreement.
 - 3. The treatment to be accorded to certain goods is specified in Protocol No. 4.
- Article 9. The German Democratic Republic shall employ the means afforded by its economic system which affect the access of Finnish goods to the market of the German Democratic Republic in such a way that Finnish exports are accorded advantages equivalent to those enjoyed by exports of the German Democratic Republic in Finnish markets as a result of the trade liberalization measures introduced by Finland under this Agreement.
- Article 10. The Contracting Parties, by virtue of their decision concerning the reciprocal removal of obstacles to trade under the provisions of this Agreement, have decided to include therein the following security provisions:
- 1. If imports of goods originating in the territory of one Contracting Party increase to such an extent and/or are effected under such conditions that they cause or threaten to cause disruptions in the domestic market or in the production of the other Contracting Party, the latter Contracting Party may, in conformity with the procedure provided for in paragraph 4 of this article, take such measures as are required to prevent or remedy this situation.

- 2. The Contracting Party concerned may similarly take the aforementioned measures if, in any sector of the economy, serious disruptions or difficulties arise which are apt to impair the economic situation of any region.
- 3. In the choice of the measures to be taken, preference shall be given to those which least affect the operation of the Agreement.
 - 4. The application of this article shall be subject to the following provisions:
- (a) The Contracting Party concerned shall, before taking the measures specified in the aforementioned cases, or as soon as possible in the cases provided for in paragraph 4 (c), inform the other Contracting Party by direct means, of the disruptions and the related security measures and shall furnish that other Contracting Party with all relevant information required by the Joint Commission provided for in article 14 for the purpose of thoroughly examining the situation and arriving at a solution;
- (b) If, within three months after the matter has been submitted to it, the Joint Commission is unable to find a mutually satisfactory solution, the Contracting Party concerned may take such security measures, in particular the cancellation of tariff concessions, as in its opinion are necessary to deal with the situation;
- (c) If extraordinary circumstances requiring immediate action make it impossible to notify the other Contracting Party in advance, the Contracting Party concerned may take such security measures as are absolutely essential to remedy the situation.
- Article 11. If a Contracting Party experiences or is seriously threatened by balance-of-payments difficulties, it may take such security measures as are required. It shall immediately so inform the other Contracting Party.
- Article 12. 1. The Contracting Parties shall take all measures necessary to ensure compliance with the obligations arising from this Agreement.
- 2. The Contracting Parties shall refrain from any action apt to jeopardize the achievement of the objectives of the Agreement.
- 3. If either Contracting Party is of the opinion that the other Contracting Party has failed to comply with an obligation arising from the Agreement or that the achievement of any objective of the Agreement is in jeopardy, it may take appropriate security measures in conformity with the procedures provided for in article 10, paragraph 4 (a) and (b), to prevent or mitigate any damage that might arise from such a situation.
- Article 13. This Agreement shall not preclude the prohibition or restriction of imports, exports or goods in transit where this is justified on grounds of public morals, law and order, public safety, protection of human and animal life and health, plant protection, protection of national treasures of artistic, historical or archeological value, protection of industrial and commercial property or compliance with regulations concerning gold and silver. Such prohibition or restriction shall not, however, result in arbitrary discrimination or in the covert limitation of trade between the Contracting Parties.
- Article 14. 1. A Joint Commission shall be established to supervise the execution of, and monitor compliance with, the Agreement. It shall for this purpose conduct investigations and render decisions in the cases provided for in the Agree-

- ment. The Contracting Parties shall give effect to these decisions in accordance with their own regulations.
- 2. With a view to ensuring proper compliance with the Agreement, the Contracting Parties shall exchange information and, at the request of either Party, shall hold consultations within the Joint Commission.
 - 3. The Joint Commission shall establish its own rules of procedure.
- Article 15. 1. The Joint Commission shall consist of representatives of the Republic of Finland, on the one hand, and representatives of the German Democratic Republic, on the other.
- 2. The Joint Commission shall adopt its decisions on the basis of mutual agreement.
- Article 16. 1. The chairmanship of the Joint Commission shall rotate between the Contracting Parties as provided in the rules of procedure.
- 2. The Joint Commission shall meet at least once a year at the initiative of the Chairman for the purpose of reviewing the general operation of the Agreement. It shall also meet, as provided in its rules of procedure, at the request of either Contracting Party whenever special circumstances so require.
- 3. The Joint Commission may decide to establish working groups, which shall assist it in performing its functions.
- Article 17. The Protocols annexed to this Agreement shall form an integral part thereof.
- Article 18. Either Contracting Party may terminate the Agreement by giving notice of termination to the other Contracting Party. The Agreement shall cease to have effect three months after the date on which such notice is given. The Contracting Parties may, however, continue to apply the Agreement for a period of not more than nine months from the date on which the Agreement actually ceases to be in force.
- Article 19. This Agreement shall be ratified by the Contracting Parties in accordance with their constitutional procedures.

The instruments of ratification shall be exchanged through the diplomatic channel.

The Agreement shall come into force on the first day of the second month following the exchange of the instruments of ratification.

Done at Helsinki on 4 March 1975 in two original copies, each in the Finnish and German languages, both texts being equally authentic.

PROTOCOL NO. 1

TREATMENT OF GOODS FALLING WITHIN CHAPTERS 1 TO 24 OF THE FINNISH CUSTOMS TARIFF

Article 1. The Contracting Parties declare their readiness to promote the harmonious development of trade in agricultural products within the framework of their national agricultural policies.

The Contracting Parties further declare that they will endeavour, through their actions in the field of trade, to facilitate the reciprocal expansion of trade in such a way that the interests of both Contracting Parties in this sector are taken into account.

- Article 2. The Contracting Parties shall apply their veterinary, public health and plant protection regulations in a non-discriminatory manner and shall adopt no new measures which unnecessarily impede trade.
- Article 3. The Contracting Parties shall, having regard to the conditions and procedures referred to in articles 14, 15 and 16 of the Agreement, examine any difficulties and other circumstances which may arise in connection with their trade in agricultural products, in order that practical solutions may be found.
- Article 4. In the consultations provided for under articles 14, 15 and 16 of the Agreement, the Contracting Parties shall give particular attention to compliance with the provisions of the Agreement and to possibilities for expanding the range of goods.

PROTOCOL NO. 2

PROTOCOL NO. 3

REGULATIONS RELATING TO ORIGIN

- Article 1. For the purposes of the Agreement, the following shall be deemed to be goods originating in the country concerned:
- (a) Goods which were produced entirely in Finland or in the German Democratic Republic;
- (b) Goods which were produced in Finland or in the German Democratic Republic with the use of products not produced entirely in the country concerned, if such products have been adequately processed within the meaning of article 3. This requirement need not be fulfilled in the case of products originating in the territory of the other Contracting Party within the meaning of this Protocol.
- Article 2. For the purposes of article 1 (a), the following shall be deemed to have been "produced entirely" in Finland or in the German Democratic Republic:
- (a) Mineral products which were extracted from the soil or sea-bed in the country concerned;
- (b) Vegetable products which were harvested in the country concerned;
- (c) Live animals which were born or hatched in the country concerned and were raised in that country;
- (d) Products derived from live animals kept in the country concerned;
- (e) Game and fish taken in the country concerned;
- (f) Products of the maritime fisheries of the country concerned and other products taken from the sea by its vessels;

- (g) Goods produced on board factory ships of the country concerned exclusively from the products referred to in subparagraph (f);
- (h) Second-hand goods acquired in the country concerned and usable only for the extraction of raw materials;
- (i) Waste materials derived from a productive activity carried on in the country concerned;
- (j) Goods produced in the country concerned exclusively from the products referred to in subparagraphs (a) to (i).
- Article 3. 1. For the purposes of article 1 (b), products shall be deemed to have been adequately processed if they have been subjected to:
- (a) Processing as a result of which the finished goods fall within a tariff heading other than that applicable to the products used; the foregoing shall not, however, include the types of processing specified in schedule A, to which the special provision for that schedule shall apply;
- (b) The types of processing specified in schedule B.
- 2. If, in the case of any finished goods, a percentage rule in schedule A and in schedule B imposes a limit on the value of the products which may be used in producing them, then, irrespective of whether, in accordance with the limits and conditions laid down in the two schedules, the products in question fall within another tariff heading as a result of processing or assembly, the total value of such products may not exceed, in relation to the value of the finished goods, the value corresponding to the percentages laid down in both schedules, if they are identical, or to the higher of the two percentages, if they are different.
- 3. For the purposes of article 1 (b), the following types of processing shall in all cases, irrespective of whether a change of tariff heading has occurred, be deemed inadequate to qualify the goods as goods originating in the country concerned:
- (a) Treatment designed to preserve the condition of the goods during transport or storage, such as aeration, expansion, drying, refrigeration, immersion in brine or in water mixed with sulphur or other additives, removal of spoilage and similar forms of treatment:
- (b) Simple dusting, sifting, separating, arranging, sorting (including the making up of assortments of goods), washing, coating and cutting;
- (c) (i) Changes of packaging, division or making up of packages;
 - (ii) Simple bottling or putting up in flasks, bags, cases or boxes, affixing to backboards and the like, and any other simple making up for retail sale;
- (d) Affixing of trade names, labels or other similar distinguishing marks to the goods themselves or to their packaging;
- (e) Simple mixing of goods, whether or not of different types, if one or more components of the mixture do not fulfil requirements laid down in this Protocol for qualification as goods originating in Finland or in the German Democratic Republic;
- (f) Simple assembly of parts of an article into a complete article;
- (g) A combination of two or more of the types of treatment referred to in subparagraphs (a) to (f);
- (h) Slaughtering of animals.

Article 4. If, in schedules A and B referred to in article 3, it is specified that goods produced in Finland or in the German Democratic Republic shall qualify as goods originating in the country concerned only if the value of the products used in producing them does not exceed a specified percentage of the value of the finished goods, that percentage shall be calculated on the basis of the following values:

On the one hand:

- In the case of products for which proof of import is presented, the value for customs purposes at the time of import;
- In the case of products of indeterminable origin, the first price for which proof can be presented, paid for the products in question in the territory of the Contracting Party in which the goods were produced;

On the other hand:

- The price ex works of the finished goods, less inland taxes refunded or refundable on export.
- Article 5. 1. The transport of goods originating in Finland or in the German Democratic Republic may be effected:
- (a) Without entering the territory of any other State;
- (b) In transit through the territory of one or more States, with or without reloading or temporary storage in that territory, if transit through that territory was justified for geographical reasons or for technical reasons pertaining to transport and if the goods remained under customs supervision, were not placed in trade or offered for sale in the States in question and were simply unloaded and reloaded or simply subjected to treatment designed to preserve their condition.
- 2. In order to verify that the aforementioned requirements are fulfilled, the customs authorities may, in case of reasonable doubt, demand the presentation of the following additional evidence:
- (a) A single consignment note, issued in the State of export and used for transport through the State of transit;
- (b) A certificate issued by the customs authorities of the State of transit and giving the following particulars: an exact description of the goods; the date of unloading and reloading of the goods and, where applicable, the ship or other means of transport used; certification of the conditions under which the goods were kept in the State of transit;
- (c) If the aforementioned papers are not available, any other evidentiary material.
- Article 6. 1. The Agreement shall apply at the time of import to "goods originating in the country concerned" within the meaning of article 1 of this Protocol if there is presented at that time a certificate of origin, in accordance with the model reproduced in annex IV to this Protocol, issued by an authority or authorized agency.
- 2. The certificate of origin shall be issued in the State of export only on application in writing by the exporter. The application shall be submitted on a standard form in accordance with the model in annex IV to this Protocol.
- Article 7. The certificate of origin shall not be invalid simply by reason of minor discrepancies between the particulars given in the certificate and the particulars given in the other documents required for customs clearance, provided that evidence is produced showing that the certificate relates to the goods presented.

- Article 8. 1. If goods are consigned from Finland or from the German Democratic Republic to an exhibition in another State and, after the exhibition are sold, for import into the German Democratic Republic or Finland, the Agreement shall apply to such goods at the time of import, provided that they fulfil the requirements of this Protocol for qualification as goods originating in Finland or in the German Democratic Republic and provided that evidence is produced to the competent customs authorities showing that:
- (a) The goods were sent by an exporter from the territory of Finland or of the German Democratic Republic to the State in which the exhibition was held and were exhibited in that State;
- (b) The aforementioned exporter sold or assigned the goods to a consignee in the German Democratic Republic or in Finland;
- (c) The goods were consigned to the German Democratic Republic or to Finland during, or immediately after, the exhibition in the condition in which they had been sent to the exhibition;
- (d) The goods were not, from the time when they were sent to the exhibition, used for any purposes other than display at that exhibition.
- 2. A certificate of origin shall be produced to the customs authorities, in accordance with the usual requirements. The certificate shall indicate the name of the exhibition and where it was held. In case of reasonable doubt, additional evidence in writing of the nature of the goods and the circumstances in which they were exhibited may be demanded.
- 3. Paragraph 1 shall apply to all exhibitions, fairs and similar public events of a commercial, industrial, agricultural or arts and crafts nature during which the goods remain under customs supervision; it shall not apply to events for private purposes involving the sale of foreign goods in shops or commercial premises.
- Article 9. In order to ensure the proper application of this Protocol, Finland and the German Democratic Republic shall afford each other, through their customs administrations, official assistance in verifying the authenticity and accuracy of certificates of origin.
- Article 10. Penalties shall be imposed in accordance with national legislation on any person who prepares or causes to be prepared a document containing materially false information for the purpose of obtaining a certificate of origin which may entitle goods to preferential treatment under this Agreement.
- Article 11. The explanatory notes, schedules A and B and the model certificate of origin shall form an integral part of this Protocol.
- Article 12. The Joint Commission may decide upon amendments to the provisions of this Protocol.

ANNEX I

EXPLANATORY NOTES

Note 1 - ad article 1

The terms "Finland" and "the German Democratic Republic" also include the territorial waters of Finland and of the German Democratic Republic respectively.

Vessels on the high seas, including factory ships on board which products taken by fishing are processed, shall be deemed to form part of the territory of the State to which they belong if they fulfil the requirements set forth in note 6.

Note 2 - ad article 1

For the purpose of determining whether goods are goods originating in Finland or in the Federal Republic of Germany, no consideration shall be given to whether sources of energy, equipment, machinery and tools used in the production of the goods in question originated in third countries.

Note 3 - ad article 1

Packagings and the goods contained in them shall be treated as forming a whole. The foregoing shall not apply if the packaging is not of a kind customarily used for the goods packed in it and has a permanent value for use on its own, apart from its use as packaging.

Note 4 — ad article 1

Tools, parts and accessories which are imported together with an article, and the price of which is included in the price of the article or is not invoiced separately, shall be treated as constituting a unit with the article concerned, provided that they are part of the normal make-up of such articles for retail sale.

Note 5 — ad article 1

Upon application by the importer, any dissassembled or unassembled article which is imported in more than one consignment shall be treated as a unit if import in a single consignment was not feasible for reasons pertaining to transport or production.

Note 6 - ad article 2 (f)

The term "its vessels" refers only to vessels which:

- Are registered in Finland or in the German Democratic Republic;
- Fly the flag of Finland or of the German Democratic Republic.

Note 7 - ad article 3

The applicable sections, chapters and headings shall be the sections, chapters and headings of the Finnish customs tariff nomenclature.

Note 8 — ad article 4

The term "price ex works" means the price paid to the producer in whose enterprise the last processing of the goods was carried out, including the value of all products used.

The term "value for customs purposes" means the value for customs purposes as prescribed in the Finnish customs laws.

Note 9 - ad article 12

The Contracting Parties, having regard to the purposes of the Agreement and the requirements of article 14 of the Agreement and of article 12 of this Protocol, declare their readiness to identify any difficulties that may arise in the application of the provisions of the regulations relating to origin, with a view to finding the necessary solutions including the possibility of amending these regulations and drawing up a basic goods schedule.

Chapter 39	Artificial resins and plastic materials, cellulose esters and ethers; articles thereof	Processing involving the use of products which are not goods originating in the country concerned and the value of which does not exceed 50 per cent of the value of the finished goods
ex 40.01	Crepe rubber for shoe soles, in sheets	Rolling of crepe sheets from natural rubber
ex 40.07	Rubber thread and cord, textile covered	Production from rubber thread and cord, not textile covered
ex 41.01	Sheep and lamb skins without the wool	Removal of wool from sheep and lamb skin
ex 41.02	Calf leather and leather of other bovine cattle (including buffalo leather), equine leather and leather of other solipeds, except leather falling within headings Nos. 41.06 to 41.08, retanned	Retanning of calf leather and leather of other bovine cattle (including buffalo leather), equine leather and leather of other solipeds, not further prepared than tanned
ex 41.03	Sheep and lamb skin leather, except leather falling within headings Nos. 41.06 to 41.08, retanned	Retanning of sheep and lamb skin leather, not further prepared than tanned
ex 41.04	Goat and kid skin leather, except leather falling within headings Nos. 41.06 to 41.08 retanned	Retanning of goat and kid skin leather, not further prepared than tanned
ex 41.05	Other kinds of leather, except leather falling within headings Nos. 41.06 to 41.08, retained	Retanning of other kinds of leather, not further prepared than tanned
ex 43.02	Furskins, assembled	Bleaching, dyeing, trimming, cutting to shape and assembling of tanned or dressed furskins
ex 50.09 ex 50.10 ex 51.04 ex 53.11 ex 53.12 ex 53.13 ex 54.05 ex 55.07 ex 55.08 ex 55.09	Printed fabrics	Printing and simultaneous processing (bleaching, trimming, drying, steaming, napping, fine-drawing, impregnating, sanforizing, mercerizing) of woven fabrics the value of which does not exceed 47.5 per cent of the value of the finished goods
ex 56.07		
ex 68.03 ex 68.13	Articles of slate or of agglomerated slate Articles of asbestos; articles of mixtures with a basis of asbestos or a basis of asbestos and magnesium carbonate	Production of goods from worked slate Production of goods from fabricated asbestos and from mixtures with a basis of asbestos or a basis of asbestos and magnesium carbonate
ex 68.15	Articles of mica, including bonded mica splittings on a support of paper or fabric	Production of goods from worked mica
ex 70.10	Bottles, ground	Grinding of bottles the value of which does not exceed 50 per cent of the value of the finished goods
ex 70.13	Glassware (other than articles falling in heading No. 70.19) of a kind commonly used for table, kitchen, toilet or office purposes, for indoor decoration, or for similar uses, ground	Grinding of glassware the value of which does not exceed 50 per cent of the value of the finished goods

	Goods	Types of processing which qualify
Tariff heading	Description of goods	the goods as "goods originating in the country concerned"
ex 70.20	Articles made from glass fibre	Production from crude glass fibre
ex 71.02	Precious and semi-precious stones, cut or otherwise worked, but not mounted, set or strung (except ungraded stones tempo- rarily strung for convenience of transport)	Production from unworked precious or semi-precious stones
ex 71.03	Synthetic or reconstructed precious or semi- precious stones, cut or otherwise worked, but not mounted, set or strung (except ungraded stones temporarily strung for convenience of transport)	Production from unworked synthetic or re- constructed precious or semi-precious stones
ex 71.05	Silver, including silver gilt and platinum- plated silver, semi-manufactured	Rolling, drawing, wire-drawing, hammering or crushing of silver and silver alloys, un- wrought
ex 71.05	Silver, including silver gilt and platinum- plated silver, unwrought	Alloying or electrolytic refining of silver and silver alloys, unwrought
ex 71.06	Rolled silver, semi-manufactured	Rolling, drawing, wire-drawing, hammer- ing or crushing of rolled silver, unworked
ex 71.07	Gold, including platinum-plated gold, semi- manufactured	Rolling, drawing, wire-drawing, hammering or crushing of gold and gold alloys, un- wrought
ex 71.07	Gold, including platinum-plated gold, un- wrought	Alloying and electrolytic refining of gold and gold alloys, unwrought
ex 71.08	Rolled gold (on base metal or silver), semi- manufactured	Rolling, drawing, wire-drawing, hammer- ing or crushing of rolled gold (on base metal or silver), unworked
ex 71.09	Platinum and other metals of the platinum group, semi-manufactured	Rolling, drawing, wire-drawing, hammer- ing or crushing of platinum and other metals of the platinum group, unwrought
ex 71.09	Platinum and other metals of the platinum group, unwrought	Alloying and electrolytic refining of platinum and other metals of the platinum group, unwrought
ex 71.10	Rolled platinum or other platinum group metals (on base metal or precious metal), semi-manufactured	Rolling, drawing, wire-drawing, hammer- ing or crushing of rolled platinum or other platinum group metals (on base metal or precious metal), unworked
ex 73.15	Alloy steel and high carbon steel:	
	 In the forms mentioned in headings Nos. 73.07 to 73.13 	Production from products in the forms mentioned in heading No. 73.06
	 In the forms mentioned in heading No. 73.14 	Production from products in the forms mentioned in headings Nos. 73.06 and 73.07
ex 74.01	Unrefined copper (including blister copper)	Conversion of copper matte
ex 74.01	Refined copper	Thermal or electrolytic refining of unrefined copper (including blister copper) and of copper waste and scrap
ex 74.01	Copper alloys	Remelting and thermal treatment of refined copper and of copper waste and scrap
ex 75.01	Unwrought nickel (excluding electro- plating anodes)	Refining of nickel mattes, nickel speiss and other intermediate products of nickel metallurgy by electrolysis, remelting or chemical process

Goods		Types of processing which qualify
Tariff heading	Description of goods	the goods as "goods originating in the country concerned"
ex 77.04	Beryllium, wrought	Rolling, drawing, wire-drawing and crushing of unwrought beryllium the value of which does not exceed 50 per cent of the value of the finished goods
ex 81.01	Tungsten, wrought	Production from unwrought tungsten the value of which does not exceed 50 per cent of the value of the finished goods
ex 81.02	Molybdenum, wrought	Production from unwrought molybdenum the value of which does not exceed 50 per cent of the value of the finished goods
ex 81.03	Tantalum, wrought	Production from unwrought tantalum the value of which does not exceed 50 per cent of the value of the finished goods
ex 81.04	Other base metals, wrought	Production from other base metals the value of which does not exceed 50 per cent of the value of the finished goods
Chapters 84-92	Machinery and mechanical appliances; electrical goods/vehicles and transport equipment; optical, photographic and cinematographic instruments and apparatus; measuring, checking and precision instruments and apparatus; medical and surgical instruments and apparatus; clocks and watches; musical instruments; sound recorders and reproducers, magnetically operated picture and sound recorders and reproducers for television	Processing or assembly involving the use of products and parts the value of which does not exceed 50 per cent of the value of the finished goods
ex 95.01	Articles of tortoise-shell	Production from worked tortoise-shell
ex 95.02	Articles of mother of pearl	Production from worked mother of pearl
ex 95.03	Articles of ivory	Production from worked ivory
ex 95.04	Articles of bone	Production from worked bone
ex 95.05	Articles of horn, coral (natural or agglome- rated) and other animal carving material	Production from worked horn, coral (natu- ral or agglomerated) and other animal carving material
ex 95.06	Articles of vegetable carving material (e.g., carozo)	Production from worked vegetable carving material (e.g., carozo)
ex 95.07	Articles of jet (and mineral substitutes for jet), amber, meerschaum, agglomerated amber and agglomerated meerschaum	Production from worked jet (and mineral substitutes for jet), amber, meerschaum, agglomerated amber and agglomerated meerschaum
ex 98.11	Smoking pipes, including pipe bowls	Production from roughly shaped blocks
