EXCHANGE OF LETTERS CONSTITUTING AN AGREEMENT¹
BETWEEN THE GOVERNMENT OF THE FRENCH REPUBLIC
AND THE GOVERNMENT OF THE FEDERATIVE REPUBLIC
OF BRAZIL ON CO-OPERATION IN THE FIELD OF IMMUNO-
BIOLOGICAL PRODUCTS

I

FRENCH REPUBLIC
THE MINISTER FOR FOREIGN AFFAIRS

Brasília, 14 October 1985

Sir,

Our two countries' long-standing tradition of friendship and co-operation is well known.

These ties are reflected in a large number of economic, cultural, technical and scientific agreements. France wishes to maintain and to strengthen these mutual relations.

Accordingly, I am pleased to take the opportunity of the visit by the President of the Republic to strengthen our mutual relations and our joint projects in the field of public health, through a combination of very diverse activities ranging from research to development.

I think it would be beneficial for our two countries to give emphasis to biomedical and biotechnological research and exchanges and, more specifically, to human resources training and specialization and the development, production and monitoring of vaccines, diagnostic reagents and any other immunobiological products.

I shall, of course, make every effort to bring these plans to fruition through ongoing co-operation, thus giving practical effect to this letter of intent.

I hope that our joint efforts will culminate in the near future in the drafting of a supplementary agreement to the Franco-Brazilian Agreement on Technical and Scientific Co-operation in the field of immunobiological products.

Accept, Sir, etc.

[Signed]

ROLAND DUMAS

¹ Came into force on 14 October 1985 by the exchange of the said letters.
